AFRICA COLLECTION 2019/20

AFRICA COLLECTION 2019/20

KOHLER®

Welcome to KOHLER® - where bold thinking and rigorous craftsmanship combine to bring innovative, beautiful design to life.

We're celebrating 146 years of setting the standard of excellence and pushing the limits of design. Whether we're creating kitchen and bath products, tile and furniture collections, engines and generators, or four-star resorts and championship golf courses, our work is born from a desire to design experiences that make the world more gracious.

After four generations, we remain a family-owned company. **Bolder than ever.**

THE BOLD LOOK
OF **KOHLER**®

A HISTORY OF INNOVATION

Kohler Co. is founded by John Michael Kohler on December 3 in Sheboygan, Wisconsin

Kohler Co. enters the power systems business with the world's first engine-powered electric generator

Orders are received from five major hotels in the People's Republic of China

European plumbing manufacturer Jacob Delafon joins Kohler Co.

Vitreous china manufacturing plant opens in Monterrey, Mexico

1873	1920	1980	1986	1991
1916	1964	1981	1987	1995
Kohler Co. designates an annual Naturalisation Day for foreign-born employees to file for U.S. citizenship	Plant is opened in Mexico City to produce small engines	The American Club opens and remains the midwest's only AAA five-diamond resort hotel since 1986	1987 Canadian company, Hytec Manufacturing Ltd., is acquired	A joint venture known as Foshan Kohler Ltd. in China begins

Kohler Co. opens a plant in Singapore and enters a joint venture with a Beijing faucet manufacturer

Doors open and manufacturing begins in Jhagadia, India

Kohler Co. celebrates the opening of its first office for Sub Saharan Africa, in Johannesburg, South Africa

Kohler Co. plans to reach its net zero environmental footprint goal by 2035

Kohler Co. acquires Fiori Ceramica in Brazil

1996

2002

2007

2009

2014

2035

1998

Kohler Co. opens a plant near Shanghai for production of plumbing products

2004

Kohler Co. acquires the Old Course Hotel, Golf Resort and Spa, and The Duke's course in St. Andrews, Scotland

2008

Uninterruptible Power Supplies Ltd. in the United Kingdom is acquired

2011

Kohler Co. acquires Novita, a bidet seat company in South Korea

2019

Kohler Co. opens its East African office in Nairobi, Kenya

KOHLER®

SUSTAINABILITY

Working toward sustainability and supporting conservation initiatives is an ongoing journey for Kohler, and creating water-conserving products has been a key component since the 1970s. But to truly have an impact today requires something more – a willingness to take chances, a propensity for innovation and a commitment to making the world a better place. Fortunately, Kohler has a tradition of all three.

The seeds of sustainability were planted in 1913 when Walter Kohler worked with the Olmsted Brothers to develop the first of two 50-year plans for the green spaces of the Kohler Co. Campus and the Village of Kohler,

Wisconsin. Because of these early efforts, the Village of Kohler has been a registered botanical garden since 2004. Kohler has preserved hundreds of acres of wilderness and wetlands as well.

Having grown into a global company, our dedication to the environment now includes a global sustainability goal of net zero, as well as a strategy to reduce our environmental footprint every year until we reach that goal by 2035. We have a history of looking ahead and doing all we can to ensure the future of our community and our world. We honor that tradition by creating a better future.

We began our official journey toward sustainability in 2008 when we set our goal to reduce our carbon footprint and solid waste by 3% annually, achieving net zero with offsets by 2035. The strategy we've put into place to reach that goal combines footprint reduction, product innovation and education.

HOW WE'RE getting there

Reduce energy use

We measure emissions from all fuels used by Kohler Co.: generation of electricity consumed by Kohler Co. facilities, company-owned planes and vehicles in direct support of company sales, and transportation-related emissions generated in support of supply chain operations.

Drive growth in sustainable products and services

We've committed to developing products and services that exhibit "more sustainable" attributes that are meaningful to the consumer.

Make landfill disposal of solid waste obsolete

Solid wastes may be liquid or solid and are often shipped off-site or handled on-site for recycling or disposal. Net Solid Waste is the Total Solid Waste minus Recycled Material.

Reduce water use each year

We measure all water used by Kohler Co. operations, including process water, cooling water, sanitary and irrigation. Water may be obtained from a public or private utility, wells or from surface water.

Embed sustainability in the KOHLER culture

We educate our internal and external stakeholders and drive sustainable practices in our daily work. Our global network of Sustainability Champions educate, inspire and guide their fellow associates to help implement the Kohler Sustainability Strategy.

Global PROJECTS

KOHLER® products grace the interiors of buildings throughout the world, from the incredible Burj Khalifa in Dubai to The Savoy in London. Our Global Projects team, located internationally, are eager to share their expertise to help build inspired spaces anywhere in the world. We offer solutions for every aesthetic, budget and experience from spa indulgence to high-rise chic. From public settings to guest rooms, Kohler will help transform your property from a place to visit to a place to indulge.

Artist Editions®

The Artist Editions® line features a number of bathroom basins that are crafted from natural materials using methods that have been passed down for generations. Honouring the inherent beauty and potential of the materials, KOHLER® designers and artisans create one-of-a-kind works of art for the home.

Artist Editions
K O H L E R

Kamala®

K-14281-TF | Cast bronze basin in tumbled bronze

Kamala® names both a Southeast Asian tree and the orange-red dye made from its seeds powdery coating. The cast-bronze basin evokes the tropical climate where this sought-after medicinal tree grows. Its low-relief pattern of dots, ridges, scrolls and links draws inspiration from patterns created two millennia ago by the Dong Son and others who used a lost-wax casting technique to craft intricate rain drums.

Dimensions: L | W | H
505mm | 505mm | 194mm

Lilies Lore®

K-14297-MP1 | Cast bronze undercounter basin

Originating centuries ago in Greece, Africa, Mesopotamia and Asia, bronze casting has been associated with classical, Renaissance and even contemporary art. Breathing new life into an old-world material, the cast-bronze Lilies Lore® basin takes on a modern shape through an organic and intricate pattern. Its low-profile texture moves beyond traditional feminine representations of lilies for a fresh approach.

Dimensions: L | W | H
432mm | 356mm | 130mm

Antilia®

K-2369-B11 | Wading Pool® glass countertop basin in ice finish

The legendary island Antilia was said to have been discovered in the Atlantic Ocean off the coast of Portugal by people fleeing Hispania in 734. Today, cartographers know no such island exists, but its intrigue remains. By bestowing this name on the Antilia® Wading Pool basin, KOHLER® celebrates the sense of allure found throughout nature.

Dimensions: L | W | H
713mm | 433mm | 70mm

Marrakesh[™]

K-11000-BU-96	Design on Bol [®] single lever mixer*
K-14046-BU-96	Undermount basin
K-14031-BU-96	Vanity top with single mixer hole

Named for the ancient capital of Morocco, the Marrakesh[™] design was inspired by Moorish architecture. Marrakesh, the city, once served as a stop along a major trade route to the famous Timbuktu. The Marrakesh[™] countertop draws inspiration from mosaics found in quaint Moroccan courtyards, while the intricate and abstract floral pattern embellishing the basin is inspired by artwork found in mosques.

Basin dimensions: L | W | H
349mm | 349mm | 175mm

Vanity top dimensions: L | W | H
787mm | 556mm | 19mm

*Must Order:
G1/2" adapter required K-880095 (2 nos. per tap)

Pallene®

K-14016-B11 | Spun glass vessel in ice finish

Named for one of the seven beautiful daughters of the giant Alkyoneus in Greek mythology, the Pallene® Vessels basin displays an intricate, classically inspired pattern embossed on its exterior. The smooth surface of the basin's interior lets water flow gracefully over this fine detailing for a strong visual appeal.

Dimensions: L | W | H
479mm | 479mm | 103mm

Lavinia®

K-2367-B11

Glass vessel in ice finish

Artisans have used glass for more than five millennia, and today this material remains an essential element in our homes and our art. The Lavinia® Vessel spun glass basin marries form and function to celebrate this time-honoured craft, capturing the raw perfection of nature. Its organic funnel shape and slender, refined walls provide a showcase for the interplay of light and water.

Dimensions: L | W | H
483mm | 483mm | 102mm

Botanical Study®

K-14223-BT-0 | On Conical Bell® vessel

The crisp lines of a leaf. The soft blossom of a flower. Botany has captivated artisans around the world since the earliest times. Botanical Study® draws on the rich tradition of botanical art, including the 16th-century Turkish floral designs that graced pottery, rugs and henna body art and 17th and 18th-century European botanical studies. Intricate graphite tulips and chrysanthemums gently entwine as a butterfly flutters nearby, presenting a graceful portrayal of nature.

Dimensions: L | W | H
413mm | 413mm | 162mm

Sartorial®

K-75749-HD2-7 | Herringbone in Black Black™ on Carillon Rectangular Wading Pool®

The Sartorial collection pays homage to the refined elegance of 19th-century European textiles. Inspired by haberdashery fabrics, this herringbone pattern strikes a modern, geometric note, showcased beautifully on the Carillon® vessel basin. Pair it with the Sartorial® Paisley basin for a coordinated master bath vanity.

Dimensions: L | W | H
536mm | 370mm | 156mm

Sartorial[®]

K-75749-HD1-0 | Herringbone in White™ on Carillion Rectangular Wading Pool[®]

Made up of Herringbone and Paisley, both familiar patterns, this collection's forms are made original with fresh presentations that enliven the bathroom. The Herringbone design celebrates the increasingly popular white on white trend with raised delicate, yet geometric, patterns that are timeless, tactile, and dimensional.

Dimensions: L | W | H
536mm | 370mm | 156mm

Caravan® Persia

K-14223-SR2-0 | On Conical Bell® vessel

Influenced by one of the oldest continuous civilizations, the Persia design reflects a rich tradition of culture and art. An eye-catching classic, Persia offers a fresh interpretation of Middle Eastern and Indian design traditions, drawing inspiration from decorative architecture and Moorish style. Organic, open line work contrasted with geometric patterns creates a unique juxtaposition and richness with gold and platinum micas.

Dimensions: L | W | H
413mm | 413mm | 162mm

Briolette™

K-2373-TG1	Glass basin in translucent dusk
K-2373-B11	Glass basin in ice finish

From its roots in ancient India to its discovery by European royals, the briolette—an oval or pear-shaped gemstone cut in triangular facets remains one of the most distinctive gemstone cuts. Its popularity reemerged during the Victorian era and the art deco period, and today the Briolette™ glass basin builds on the tradition.

Dimensions: L | W | H
445mm | 445mm | 121mm

Kallos®

K-2361-B11 | Spun glass undermount basin in ice finish

Named for the Greek word meaning beauty or grace, the Kallos® basin draws on the rich tradition of ancient artistry. Its detailed architectural pattern recalls the coffered dome of Rome's ancient Pantheon, delicately expressed in spun glass. The fine-cut glass design conceals items stored beneath the basin, while reflecting light and colour in captivating patterns.

Dimensions: L | W | H
406mm | 406mm | 130mm

Derring[™]

K-17890-RL-RB2

Round bathroom basin

K-17916-RL-RB2

Rectangular bathroom basin

Inspired by studio pottery, the Derring[™] collection celebrates the inherent beauty and authenticity of handcrafted ceramics. Each basin is a one-of-a-kind creation, finished with unique artisanal glazes that produce fascinating surface effects. A hand-carved texture accentuates the glazes' subtle tonal variations. Featured in neutral hues, this basin can be the centerpiece of your bathroom.

Round dimensions: L | W | H
449mm | 449mm | 152mm

Rectangular dimensions: L | W | H
536mm | 370mm | 156mm

Shagreen®

K-77714-SSP

| Wading Pool on Carillion® round

The Shagreen® collection celebrates the subtle colouring and distinctive pebbled texture of natural shark and ray leather. Inspired by oil spot glazes that originated in China during the Song Dynasty, a two-step glaze process uses minerals to create an interplay of shimmery and matte effects. The rich glazed finish shows iridescent pearly tones and a gently granulated texture similar to leather. Each pattern, formed through an organic process, is unique.

Dimensions: L | W | H
449mm | 449mm | 152mm

Understanding **YOUR SPACE**

From New York to Shanghai to Nairobi, KOHLER's leading-edge products help today's most forward-thinking designers and developers realise their vision.

There are a lot of elements to consider when planning your new bathroom. In this book, you'll find everything you need to start your project and make your design process easier. Learn about the quality of KOHLER® materials, the unique technologies that only we can offer and our distinctive, award-winning designs that will bring your vision to life.

Suites

Meticulously designed as complete, integrated, yet customizable units, KOHLER® suites help achieve a unified look for the bathroom. By coordinating from a wide range of fixtures, mixers and accessories, Kohler suites provide a perfect bathroom solution.

Toilets

KOHLER® toilets offer a variety of performance-driven flushing systems that are engineered to meet your particular needs. Whether your needs are based on extraordinary flushing power or complete, quiet performance with added comfort, Kohler toilets provide the perfect solution. Select models integrate with Kohler suites and ensembles to create a unified look throughout your bathroom.

NXT, YOUR FUTURE IS ALREADY HERE

With a performance of more than double the industry standards the KOHLER® NXT Range announces the future of flushing. Now, never look back.

ENGINEERED FOR FLUID DYNAMICS

The rim guides the water jets to create a high velocity stream hitting the bowl at high pressure.

INTELLIGENT POWERJETS

By controlling the time gap between two major jets the waste is completely removed from the bowl. As the rear jet pushes the waste down, the front jet joins in and creates a powerful deluge to transport the waste 18 meters away into the drain.

SCIENTIFICALLY DESIGNED SUMP

Waste matter slides away due to the design of the toilet engine. The sump is scientifically designed, with a backward slope that shifts the lowest point beyond visible range.

KOHLER

NXT

RANGE

NEVER LOOK BACK

ENHANCED PERFORMANCE STANDARD

Heavy waste flushing performance

ASME standard 350g

NXT Toilets flush 2X more waste compared to industry standard

Light waste flushing performance

95% waste removal in single flush as per ASME

99.88% waste removal in single flush in NXT Toilets

CHOOSING YOUR TOILET

TOILETS

Modernlife... Wall-hung toilet with thin Quiet-Close... seat in white K-77142IN-SS-0

CONSIDER YOUR SPACE

RECTANGULAR

- Rectangular shape for larger spaces and contemporary aesthetic

ELONGATED

- Measures 473mm or more
- Fits most residential spaces
- Provides added room and comfort for adults

ROUND - FRONT

- Measures 425mm or less
- A good solution for small spaces

TOILET SPACE

Incredible performance. Award-winning design. Innovative technology. With KOHLER® toilets, you can count on it all. Our range of stylish water-saving toilets give you powerful and efficient performance with the cleanliness and comfort you want.

CONSIDER STYLE & CLEANLINESS

INTELLIGENT TOILETS

- Fully automated toilets come with motion sensors
- Automatic flush and advanced bidet functions

WALL-HUNG

- Mounts to wall for easy cleaning beneath the toilet
- Tank and mounting hardware are concealed behind the wall

ONE-PIECE

- Integrated tank and bowl offer a seamless easy-to-clean design
- Fewer crevices for dirt and germs to hide

TWO-PIECE

- Separate tank and bowl design

WALL-HUNG WITH EXPOSED TANK

- Mounts to wall for easy cleaning beneath the toilet
- Exposed tank option

ModernLife™

Every aspect of the design is aimed at achieving ultimate hygiene. A combination of the easy-lift seat, rimless bowl and overall shape ensures effective flushing and prevents dirt traps.

Modernlife.. Wall-hung toilet with Quiet-Close.. slim seat cover UF in white K-77142IN-SS-0

MODERNLIFE™

The innovative ModernLife™ toilet was designed with effortless hygiene in mind. Its ultra-thin modern seat and seamless curves complement contemporary bathrooms and guarantee easy cleaning.

KEY FEATURES

100% TRULY RIMLESS BOWL

Pure rimless design to prevent the hidden build-up of stains and dirt. No groove allows for effortless cleaning.

EASY LIFT SEAT

Modern, ultra-thin seamless lid designed to limit contact for hygienic purposes.

EASY CLEAN AROUND

Unique streamlined design facilitating effortless and quick cleaning.

BEVELLED EDGE

Designed for drainage of excessive liquid into the bowl to prevent unhygienic build-up.

EASY SEAT REMOVAL

Fully detachable seat allowing for thorough easy cleaning.

DURABLE LEAK PROOF DESIGN

Modernlife.. Wall-hung toilet with Quiet-Close™ seat cover UF in white K-77142IN-SS-0

IN-WALL TANKS

Designed to accommodate any of our wall-hung toilets, KOHLER® in-wall tanks provide reliable performance and sleek styling for commercial and residential bathrooms. Minimising clutter for optimal use of space and ease of cleaning, these in-wall tanks and tank covers with dual actuation offer a modern solution.

FEATURES

Leak proof design

Flexible installation

Effortless flushing & high performance

Easy maintenance

Long lasting

Instafit means crack free structures, leak proof design, high material strength and thickness, strong load bearing abilities and an incredible sloping bottom that prevent the accumulation of debris.

INSTAFIT+

K-77028IN-M-NA

In-wall tank with full frame and accessory box included (Mechanical Cistern)

INSTAFIT

K-77029IN-M-NA

In-wall tank with half frame and accessory box included (Mechanical Cistern)

RECOMMENDATION: Connector box (K-1355356) is for all in-wall tanks. Required for pan outlet connections.

IN-WALL TANKS

PNEUMATIC IN-WALL TANKS BENEFITS

Pneumatic In-wall tanks provide the flexibility of choosing the faceplate position, while providing a super-smooth actuation mechanism. A thin plastic tube carries air from the faceplate to the valves within the tank, which get actuated due to the compressed air.

- Faceplate can be positioned up to 1.5 m away from the In-wall tank (a service access window is still needed in front of the tank)
- Advanced actuation mechanism, with the right amount of pressure feedback
- Easy to service, with no plastic actuation rods that could break

INSTAFIT+ | K-77028IN-P-NA

In-wall tank with full frame and accessory box included (Pneumatic Cistern)

INSTAFIT | K-77029IN-P-NA

In-wall tank with half frame and accessory box included (Pneumatic Cistern)

RECOMMENDATION: Connector box (K-1355356) is for all in-wall tanks. Required for pan outlet connections.

BOLD INNOVATION

TOILETS

Veil.. Floor-mount intelligent toilet with integrated bidet in white K-5401X-0

INTELLIGENT TOILETS _____

KOHLER® intelligent toilets combine innovative design, technology and personalised cleansing into stunning styles. From striking forms to programmable settings, our intelligent toilets bring a new level of everything you desire in a toilet - intuitive, intelligent and eco friendly.

The top **THREE** reasons why intelligent toilets are the now...

1 ARTFUL DESIGN
Intelligent toilets feature an innovative tankless design that makes a stunning style statement in any decor while their skirted one-piece design makes them easy to wipe clean. The intuitive touch-screen remote can be mounted on the wall or be handheld.

2 PERSONALISED COMFORT
Control your preferences for a heated seat, bidet and air dryer with an intuitive touch-screen remote. A built-in LED night light and hands-free opening and closing functionality provide added convenience.

3 DYNAMIC CLEANSING
Offering remarkable bidet cleansing built directly into the design, intelligent toilets feature a self-cleaning bidet wand, precision air dryer and a deodorising filter all in one.

Veil.. Wall-hung intelligent toilet with integrated bidet K-5402K-0

Unveiling the exquisite curves and ultra-responsive controls, Veil™ is an eclectic story of spectacular artistry and automation. This finely sculpted toilet features a plethora of customised features created to offer the ultimate in comfort and hygiene.

C3™ Seats

C3™ toilet seats with bidet functionality use the naturally soothing quality of water as a refreshing, hygienic alternative to toilet tissue to meet our evolving sense of clean.

The three Cs of the C3™ Seat range.

1 CLEANLINESS

Integrated bidet functionality redefines our idea of clean. An in-tank water heater warms the water, while dual wands give a soft, aerated wash in posterior and anterior positions. A touch of the keypad controls rate and temperature of water flow.

2 COMFORT

C3-125 and C3-225 toilet seats offer benefits far beyond traditional plumbing, with heated seats and a selection of water temperature and flow settings.

3 CONVENIENCE

Two attractive models of the C3™ toilet seat allow users to achieve a new level of care. Features include a user sensor and energy-saving function, plus a nightlight and Quiet-Close™ lid and seat.

C3™ TOILET SEAT

Designed for cleanliness, comfort and convenience, the C3™ toilet seats with bidet functionality offer a gentle wash, preset to your individual preference.

One-Piece Toilets

One-piece toilets offer the exceptional functionality you expect from KOHLER®, but with a lower profile. You can transform even the smallest bathroom into a well-designed, comfortable space.

- Clean with ease thanks to a seamless tank and bowl design and, on some toilets, concealed or skirted trapways.
- Make your bathroom feel more spacious with a lower tank profile, which fits under many bathroom countertops.
- Choose your shape: some styles feature compact elongated bowls, which fit in the space needed for a round-front toilet.
- Avoid virtually all plugs with a precision-engineered water delivery system.

San Raphael..One-piece toilet with Quiet-Close.. seat cover in white K-3722X-0

KOHLER® SIGNATURE HYDROTHERAPIES

EFFERVESCENCE

Effervescence hydrotherapy caresses your body in a warm, slow-moving embrace. Water and air gently travel through unique ports designed to pamper your body with champagne-like bubbles that cling to your skin. Creating a serene and meditative environment, effervescence envelops your body with sensory delight.

BUBBLEMASSAGE™

BubbleMassage™ hydrotherapy is designed to deliver a holistic, full-body experience. Warm air is pushed through the 360-degree staggered airjet design, creating thousands of bubbles. Your entire body is thoroughly massaged, while the random motion of bubbles traveling along your body to the surface helps center and clear your mind. You can tailor the intensity of each bathing experience, from a soothing caress to a vigorous massage.

KOHLER® is the only bathing manufacturer in the world to own and operate an award-winning water spa. Our expertise in hydrotherapy allows us to create truly unique experiences that help stimulate the senses and bring the mind and body into balance.

Enjoy spa treatment benefits in the comfort of your home with Kohler bathing products, so you feel an enhanced sense of well-being.

WHIRLPOOL

Whirlpools are engineered to maximise the unique benefits of targeted hydro-massage and similar to a deep tissue massage, can potentially increase blood flow. Delivering powerful directed massage, our whirlpools offer real solutions for unwinding and revitalisation. Kohler whirlpool jets rotate for precise positioning and adjust for intensity, customising each bathing experience.

BATH

Sometimes, a simple approach is the best. Uncomplicated and well-conceived. We engineer our baths so that nothing comes between you, your bathing preferences and all-encompassing comfort. Our baths are ergonomically crafted to gently support the natural curves and angles of the body. For the bathing purist in each of us, Kohler baths help keep life simple.

Purist... Single-control freestanding bath filler in vibrant rose gold K-10129A-B4-RGD

BATH FILLER

Our expanded offering of bath fillers comes in a range of styles. Based on your bathroom's configuration you could choose from a freestanding, floor-mount bath filler or deck-mount bath filler.

FLOOR-MOUNT BATH FILLERS

- Feature an integrated hand shower for added convenience
- Single-handle models easily control water temperature and activation
- Bath fillers carry water up from the floor, keeping the bath's deck uncluttered

DECK-MOUNT BATH FILLERS

- Simple and intuitive to use
- Ideal for under-mount and drop-in installations
- Deck-mount fillers can be installed onto a stone or tile deck, or often onto the bath's surface

Purist™ Single-control freestanding bath filler in vibrant rose gold K-10129A-B4-RGD

TRENDS

Components™

A radically simple modernist collection of interchangeable spouts and handles.

Components presents minimalist aesthetic and the ultimate in customized design choices.

Modernism continues to blur, stretch and reshape design until it's both familiar and surprisingly new. It follows, then, that the latest kitchen and bathroom trends aren't strictly defined: rather than existing in silos, they are woven together into a spectrum.

Kohler explores these movements and invites you to fearlessly discover the layers of self-expression found in every element and to discover a fresh perspective as modern design unfolds before you.

MONOCHROMATIC MINIMALISM

SIMPLE AND CLEAN

*Visual cohesion creates
a sense of order.*

LAYERED MAXIMALISM

A CURATION OF VARIED AESTHETICS

*Designing without fear
of extravagance.*

Unbridled self-expression.

TAPS & MIXERS

The design and detailing of your bathroom is something that can bring you pleasure everyday; it is not a place for compromise. KOHLER® offers an inspiring breadth and depth of mixers for basin, bath and shower applications. Ceramic disc valving and flexible stainless steel supplies, along with an array of styles and finish options, allow homeowners to complete their bathrooms with confidence.

VIBRANT FROM KOHLER®

Finish that lasts

The rich selection of colours and textures provide a deep offering of fully coordinated bathroom elements. The result is a designer's dream: an extraordinary range of colours that can transform tapware into bathroom stars.

Our finishes exceed the industry durability standards two times over. Adding a nickel undercoating enhances the strength and color integrity and gives KOHLER® mixers a rich lustre that resists scratching, tarnishing and corrosion.

ADVANTAGES AT A GLANCE

- Enhanced against corrosion and scratch-resistance
- Lustrous and durable surface for lasting beauty
- Wide variety of colours and materials to accommodate a multitude of styles

MIXER

TECHNOLOGY

DETENT TECHNOLOGY

DETENT SAVES 50% WATER WITH THE INTERMEDIATE STOP IN THE MIXER LEVER.

KOHLER® Detent Technology is an intermediate stop built into several of our mixer levers for a 50% water saving. This expertly designed technology offers the user the opportunity to utilise the mixer in two modes:

50% INTERMEDIATE MODE

Provides sufficient flow for a large number of routine washing including, brushing your teeth and hands.

100% FULL FLOW MODE

Provides greater flow for more intensive usage including cleaning your washbasin or filling the basin quickly.

SAFESEAL™

Safeseal™ Waterways prevents any contact between water and the metal body of the mixer by regulating flow through a special built in waterway.

Safer touch

Scald proof as hot water doesn't come in contact with metallic surface

Safer water

No contamination of lead and nickel in water

35mm mixer cartridge

High performance in low pressure conditions

Mixer cartridges tested for 1 million cycles

(Two times the industry standard, ASME standard)
Durable performance; equals 50 years usage for mixers

reddot design award

AWARD-WINNING DESIGN

Whether traditional or contemporary, a mixer that bears the name KOHLER® carries with it the pride of having been designed with utmost care for every detail. Each piece is thoughtfully designed to be exceptional on its own.

PROVEN PERFORMANCE

Cartridges used in single and two-handle mixers employ ceramic discs fired to near-diamond hardness, so debris gets ground and flows out. The discs' movement has a polishing effect that over time creates smooth and consistent handle operation.

Every handle is tested and guarded against wobble or looseness, ensuring each mixer delivers joy for its entire life.

FIND YOUR MIXER

Our mixers and accessories allow you to design bathrooms that are tailored expressions of your personal style. It's simply a matter of settling on a design and finish that's right for you and choosing the components you'll need, we've done the rest of the legwork for you.

Select a configuration

SINGLE-HANDLE MIXERS

- Control water volume and temperature with a single handle
- Designed for a basin with a single hole

WIDESPREAD MIXERS

- A great addition to larger vanity areas and pedestal basins
- Requires three mixer holes that measure 203mm to 406mm from one side to the other

TALL MIXERS

- Known as Tall or Tower models
- Designed to accommodate above-counter KOHLER® Vessel

WALL-MOUNT MIXERS

- Mounted on the wall behind the basin
- Ideal for above-counter, wall-mount and under-mount basin
- Helps keep the countertops clear

THE KOHLER® MIXERS ADVANTAGE

KOHLER® mixers are designed, engineered and manufactured to the highest standards of quality and deliver a lifetime of uncompromised performance.

Durable Ceramic Valves

Tested to 1,000,000 on/off cycles equaling 50 years of use for mixers, which is twice the industry standard.

Lasting Finish

Resists corrosion and wear two times longer than the industry standard.

Eco Cartridge

Saves water through two-stage vertical resistance to handle movement and ensures that the user remains conscious about moving to higher flow, thereby conserving water.

Easy Clean Sprayface

The mixer surface can be wiped clean with only a wet cloth to get a sparkling finish.

PVD Technology

Available with the Vibrant Collection, Physical Vapor Deposition technology offers a range of unique finishes with a 12-year residential warranty.

Versatile Mixer Height

Combine standard and tall height mixers with the perfect washbasin, vessel, countertop, etc. to suit your needs.

Safe Touch

Protective shell ensures the mixer is safe to touch.

DESIGN INSPIRATION

There is no experience so central to our nature as that involving water. Little wonder that so many of our rituals celebrate and revere it. It defines our well-being. Whatever term is used to describe it, the modern spa is simply our version of an ancient custom, using water to rejuvenate, relax and help reinvigorate us.

The experience of water is deeply resonant, none more so than in its natural environment. If we could create a product that captured the essence of this, we knew that this could embody luxury.

Asia is rich in cultural heritage with the pursuit of peace, tranquility and wisdom through ritual and natural reflection at its centre. Our Shanghai design team thus led our exploration, seeking to place natural experience first. Concepts which allowed the simple beauty of water to dominate created the strongest emotional connection – its movement, reflections, the feel upon fingers suspended in its flow, its gentle sound when allowed to run free. We looked back at rivers, their meanders and passage around and over stone. To capture this within the confines of a bathroom environment presents numerous challenges. Not forgetting that the experience must also deliver excellent bathing functionality, in Beitou we created a form to celebrate water, placing water first, presented up on a stage for our indulgence and experience. Water rises spring-like and flows smooth and true in a channel seemingly worn by water, cascading gently into outstretched hands.

There is intentionally nothing more. It is bound by the most basic geometry. A cantilevered spout supported on a honed cubic pillar that is designed to recede, creates a simple contemporary form that readily complements many settings.

Beitou™ single-control basin mixer with drain in polished chrome K-99856IN-4-CP

BEITOU™

Contemporary interior design has an infinite variety of expressions. To discover the potential for new and inspiring faucet designs, we continuously converse with designers and consumers worldwide, probing for insight and meaning that we can connect with new design. This work caused us to debate emotion in modern design and consider how to craft minimalism, to prevent it from becoming impersonal without resorting to known visual characteristics – a non-referential modernity, without a backward glance.

A global design team, using cultural conversations as a springboard, set about encapsulating contemporary mood in metal, seeking sensitivity and emotional connection without sliding into embellishment or cliché.

Avid's elegant, modern and somewhat feminine form was created by the U.S. team following an extensive collaborative concept period. Fluid metal flows from deck through spout. As it turns forward, Avid splits,

projecting a graceful fingertip-control lever far forward. The lever connection is pushed as far back as possible to maintain a continuous flowing surface through the 90-degree turn.

By pairing painstaking simplicity with visual comfort, versatile Avid creates an inviting emotional response and coordinates with most contemporary bathroom interiors.

AVID™

Evolving the minimalist design ethos, the Avid™ collection marries art of simplicity with dynamic sensibility. Slender arcs, smooth planes, arresting angles – each detail is designed to be encountered.

COMPOSED™

Art is the elimination of the unnecessary

PABLO PICASSO

Diversity within interior design delights and inspires designers at KOHLER®. Communications and social media streams now fuel experimentation, the leading edge dancing forward constantly. Against this fluid backdrop, creating new product demands clarity of purpose and a refusal to compromise.

Resonant within our observations was the repeated role of the best of the best, those seemingly timeless pieces that find purpose in many interiors. They are frequently simple, always highly resolved and truthful to their intent.

This mindset led us to explore the meaning of a minimalist masterpiece in modern times with the intent that when honestly formed, it could play a wide variety of roles within the flux of interior expression in modern bathroom architecture.

Inspiration for Composed™ finally came from Rowena Reed Kostellow, a professor at Brooklyn's famed Pratt Institute between 1939 and 1988. Kostellow showed generations of artists and designers how to transform precisely defined basic shapes into visual poems that elicit an emotional response. The single-handle mixer led our exploration. Often the most difficult piece to design, with our self-imposed goal, it would set the standard for the Composed™ range. Its elements were repeatedly refined and reduced, seeking to achieve poise

and purpose from the most compact circular and rectilinear forms. A side-mounted control was introduced to strictly maintain the visual balance, whilst providing sensitive fingertip adjustment. Joystick and widespread models carry more conventional handles but have the same disciplined attention to detail.

Composed™ is obsessively so. The intent is to delight in detail whatever its role within the interior.

COMPOSED™

The Composed™ collection by KOHLER® was designed for connoisseurs of modern art and architecture. Stripped of non-essential flourishes, Composed™ embodies simplicity. Clean. Classic. Quietly confident. It exemplifies refinement among Kohler® products as it forms an original composition that is at once unique yet comfortably familiar.

PURIST™

In our conversations with designers and consumers about the bathrooms they were wanting to create, personalised minimalism was a frequent topic. The calming allure of perfect proportion, order and refined detail has an enduring and broad appeal – a counterpoint to a 24/7 lifestyle. For some, this disciplined architecture is all that's needed, but for many it forms a background against which individuality can then be expressed through objects, art or carefully chosen design. This is how we approached the design of Purist™; we wanted to achieve simplicity with soul to provide a choice for a discerning eye.

The U.S. design team led the design and reduced the product to its basic elements as a starting point. Delving into the industrial origins of water supply, they were inspired by the cast, forged and wrought components where form clearly followed function.

A simple hand pump led to the unique body, handle and spout architecture which defines the Purist™ bathroom sink mixer and is the essence of the range. We stripped this iconic form back, making adjustments for the bathroom application

but staying true to the functional intent. In our research, we also found the source of the mixer's subtle character. To anchor the product, we designed a turned escutcheon inspired by industrial-revolution-era mouldings and industrial couplings. Handles start and finish with precise external and internal radii to give a quietly decorative strength.

Purist™ is minimalism with a twist: contemporary, versatile and confidently original.

Toobi™

EXPOSED

CASCADE FLOW

Cascade flow from spout to ensure no splashing or spraying.

STORAGE SPACE

Toughened glass top ensures a scratchless storage that eliminates salt and mineral deposit on the surface area.

EASY RETROFIT

To ensure that the system is compatible with existing exposed systems in the market.

SCALD-PROOF

Water flows through internal waterway ensuring outer surface stays unaffected by temperature variation.

TOOBI™

Toobi™ Exposed Bath & Shower System is designed to transform the showering experience into sheer rejuvenation. With a simple and neat interface, Toobi re-imagines the showering experience for contemporary bath spaces.

KEY FEATURES

- Cascade flow
- Durable shine
- Easy retrofit
- Scald proof
- Storage space

SHOWER
SPACE

SHOWER SPACE

From floor to ceiling, wall to wall, KOHLER® offers you all of the products needed to create a dream shower for every style and lifestyle. Our products are designed to work together to make your daily shower feel like an escape from the world.

Here's what you need to consider as you build your shower space:

- 1** DIGITAL SHOWERING
- 2** VALVES
- 3** BATH & SHOWER TRIMS
- 4** RAIN PANELS & RAINHEADS
- 5** WATERTILES
- 6** HANDSHOWERS & BRACKETS
- 7** SHOWER COLUMNS & PANELS

SHOWERING

Experience

SELECT YOUR SHOWERING COMPONENT

RAINHEADS

- Target your head and shoulders
- Provide a soft and gentle drenching spray
- Great for a relaxing, spa-like experience

BODY SPRAYS

- Depending on placement, you can target your shoulders, back or feet
- Offer a targeted, well-pressured spray
- Use to relieve sore muscles with a hydro-massage

SHOWERHEADS

- Target your head, shoulders, back and face
- Deliver excellent pressure and coverage
- Designed to clean your hair and body
- Single-function showerheads offer the best spray for washing
- Multifunction showerheads include a variety of sprays

HANDSHOWERS

- Reach head to toe for increased mobility
- Can be a primary or secondary water source
- Some provide multiple spray experiences
- Designed to clean your hair and body

Real Rain™

SUMMON THE RAIN

Feel the soft caress of real rain on your skin as you shower. Immerse yourself in the feeling of summer storms and leafy rainforests with Kohler Real Rain™. It's more than just a shower, it's an experience.

DESIGNING THE RAIN

Soft Summer Shower

Rain is always about the drop. It begins and ends with drops. Drops that differ in size and speed. Drops that fall in no particular pattern.

To replicate the gentle building of a rain storm, Real Rain™ overhead shower panel is designed with a reservoir that spills into the shower panel.

Gravity does its job, and raindrops begin to fall softly, slowly through concave nozzles. They grow in strength and speed until the shower feels, sound and looks like warm summer rain.

LET IT RAIN

1. The silicone sprayface offers a sleek design and is easy to clean.
2. Enjoy the inviting, warm, full coverage experience beneath an oversized 283mm x283mm panel featuring 775 nozzles.
3. Breathe easily beneath the centre rain-free zone while your body is enveloped by a gentle rainfall.

Drenching Cloudburst

The deluge feature releases the entire reservoir of water in one powerful moment - 1.9 litres in eight seconds - to capture the sudden energetic burst of heavy rain.

Because the reservoir captures water to create the flow of the deluge feature, Real Rain™ conserves water by using only 7.6 litres per minute, even during the heaviest downpour.

LET IT POUR

1. Soap and shampoo are rinsed away when the deluge feature is activated and the centre nozzles release a powerful column of water.
2. With the touch of a button your soft summer shower is transformed into a cloudburst of drenching rain for eight exhilarating seconds.

REAL RAIN™

Featuring a water reservoir that utilises gravity in favor of pressure, the Real Rain™ showerhead starts off with a mere sprinkle before transforming into a full-fledged summer storm.

KEY FEATURES

- 775 silicone full-coverage nozzles
- 7 litres per minute flow rate
- Deluge function for a powerful column of water
- Rain free centre panel for comfort
- Works in conjunction with the DTV+ digital system

dtv⁺

OUR MOST ADVANCED SHOWERING SYSTEM

DTV+™ is a digital thermostatic valve (DTV) that controls four elements to give you a true multi-sensory showering experience. Every element of your showering experience is completely customizable to your needs and is controlled by the touch-screen interface. There's nothing quite like it for the home, and it's only from KOHLER®.

CONTROL THE ELEMENTS

WATER

DTV+™ works with one or two valves. Each valve gives you six, three or two ports that run different showering components simultaneously.

MUSIC

Add a KOHLER® Amplifier and SoundTile® speakers to introduce music into any showering experience. Amp yourself up for the day or unwind from the daily grind with your favourite playlist.

STEAM

Add a steam adapter and steam generator to bask in the rejuvenating embrace of a soothing steam experience.

LIGHTING

Add lighting elements to control every aspect of the entire room's ambience. It will set the mood for your very own spa retreat.

Discover more at KOHLER.com/DTVplus.

AQUA TURBO 360

Experience water like never before with the Aqua Turbo range of valves from KOHLER®, revolutionary components that give you high performance showering and make every showering combo a worthwhile investment.

Elevate your showering experience with the Aqua Turbo 360 showering system from Kohler.

ADVANTAGES OF AQUA TURBO 360

1 PRACTICAL VALUE

Significantly better value with a single valve instead of the standard two

2 EFFORTLESS INSTALLATION

Reduce plumbing hassles and makes for an easier installation process

3 CLEAN DESIGN

Leads to a neater bathroom environment

4 VERSATILE CHOICES

Allows flexibility with multiple showering configuration

ANTI DRIP TECHNOLOGY

The new self levelling ball joint reduces water dripping from the showerhead when closed by 80%.

Number of nozzles increased by 60%

ZERO DRIPPING

INNOVATIVE SELF LEVEL BALL JOINT DESIGN

DEDICATED DESIGN-RESIDUAL
WATER REDUCED BY 80%

KOHLER® INTRODUCES WATER-EFFICIENT, AIR-INDUCTION

KATALYST™ SHOWERHEAD TECHNOLOGY

Cutting edge Katalyst™ technology optimises spray performance for maximum enjoyment while reducing water consumption.

This technology is built around a new concentration of anti-scale nozzles and internal waterway, along with air added to generate larger droplets. Sprays are therefore more generous and intense, enhancing the user's sensory experience.

2 litres of air per minute are cleverly infused into the water via a concealed venturi system positioned at the base of the showerhead. The spray face is optimised to deliver more generous, focused water droplet coverage, stimulating the senses and limiting overspray. Clear anti-scale nozzles enhance the restrained design.

RACETRACK TECHNOLOGY

RACETRACK TECHNOLOGY + AIR-INDUCTION TECHNOLOGY

= Luxurious Shower

The innovative design of our Racetrack waterway delivers the right amount of force and optimal coverage, minimising wasteful overspray and increasing cleaning and hair-rinsing performance. Even distribution across the sprayface provides consistent, full coverage.

WITH RACETRACK TECHNOLOGY

WITHOUT RACETRACK TECHNOLOGY

SHOWER SPACE

THE KOHLER SHOWERING ADVANTAGE

LASTING FINISH

Resists corrosion and wear two times longer than the industry standard.

KATALYST™ TECHNOLOGY

Injects two litres of air into the water flow per minute, making every drop bigger and more luxurious.

RACETRACK WATERWAY

Ensures equal distribution of water through the showerhead and delivers a revitalising spray with full coverage.

MULTI-FUNCTION SHOWERHEAD

Choose from a range of revitalising and relaxing sprays with a wide selection of spray solutions, including big, drenching drops, a soft silky spray, a massaging pulse of water, and a soft luxury spa spray.

Loure® Square multifunction rainpanel K-97167/IN-CP

Exquisitely crafted rainpanels with multiple shower configurations that transform the element of life and bend it to your will. So forget showering. Immerse yourself in water shaped by pure indulgence.

LOURE®

LOURE®

K-97167IN-CP

Square multifunction rainpanel with LED lights

A woman with dark hair, wearing a white halter-neck dress, is standing in a shower. She is looking down at her hands, which are cupped together under a large, rectangular, wall-mounted showerhead. Water is falling from the showerhead in a single, thick stream. The showerhead has a blue light in the center. The background shows a modern bathroom with a white sink, a mirror, and a potted plant.

KOHLER® Africa Sanitaryware and Bathing Products Limited Warranty

Kohler Africa Sanitaryware Products (Sanitary Ware like Lavatories, Toilets, etc) and Bathing Products (Bath Tubs, Whirlpools, Bubble Massages, etc) used in normal residential and non residential commercial settings are warranted to be free of defects in the material and workmanship for the period of time set forth in the warranty coverage chart as detailed below, commencing from date of sale of Kohler Africa Sanitaryware and Bathing* Products to the original purchaser (“warranty period”).

WARRANTY CHART		
Products	Residential Warranty Period	Commercial Warranty Period
Vitreous China	10 Years	5 Years
Acrylic	5 Years	3 Years
Cast Iron	10 Year	10 Year
In-wall Tank	10 Year	5 Year
Toilet Seat	2 Year	1 Year
Electrical/Electronic Components*	1 Years	6 Months
Fittings**	2 Year	1 Year

* Electrical/ Electronic Components such as Sensor/ Motor/ Pump/ Solenoid Valve/ Heater/ Circuits Boards/ Blower Controller are considered as Electronic/Electric Components.

** Fittings comprise of spares/accessories of Sanitaryware and Bathing Products and include such as Fill Valve Assembly, Flush Valve Assembly, Jets, Dial Trim, Chromatherapy lights.

During the warranty period if (in the opinion of Kohler Africa) the defect is due to defects in the material or workmanship, Kohler Africa or its Authorised Service Franchisee/Representative will, at its sole option, repair or replace free of cost, any defective component or part of the Sanitaryware and Bathing product, subject to the terms and conditions described below:

1. The Product Installation was duly completed by a professional plumber with a valid registration with the Plumbing Industry Registration Board (PIRB) of South Africa in one of the following categories: Licenced Plumbing Practitioner, Master Plumber or Director Plumber. Proof of registration may be requested by Kohler Africa. ***
2. Kohler Africa or its Authorised Service Franchisee solely can service/repair the Product.
3. Kohler Africa and its Authorised Service Franchisee will make unit repairs or replacements under this warranty within a reasonable period of time, as determined by Kohler Africa or its Authorised Service Franchisee performing the repair or replacement.
4. This warranty is only effective if proof of purchase (original sales receipt) is provided with all warranty claims or requests.
5. The service/repair of the warranty shall be provided only within the municipal limits of the town or city where the Branch Office of Kohler Africa or its Authorised Service Franchisee is located.
6. If the Product is installed beyond the municipal limits of Kohler Africa’s Branch Office/Authorised Service Franchisee locations, any and all costs and expenses incurred for repair/service of the Products in respect of a) to and from travel of service personnel and b) transportation of the Product and/or spare parts and/or components from the location of Kohler Africa’s branch office or Authorised Service Franchisee to customer’s location and back shall be borne wholly and solely by the customer at the prevailing rates, and Kohler Africa shall not be liable for any damage caused to the Product in transit or delivery for repair.
7. Warranty period will start from date of invoice and shall automatically terminate upon the expiry of the warranty period even if the Product has not been installed after purchase or has not been in the use for any part or whole of the warranty period for any reason whatsoever.
8. This warranty does not include payment of or responsibility for any excise duty, central taxes, state taxes and/or other local taxes assessed to the parts supplied or repaired during the warranty period.

9. In the event of any repairs/replacement of any parts of the Product, this warranty shall thereafter continue and remain in force only for the unexpired period of the warranty. Any time consumed for the repair/ replacement of parts including transit of the Product or its parts or any period during which the Product has not been used whether under warranty or otherwise shall not be excluded from the warranty period and no extension of the warranty period will be granted.
10. This warranty remains applicable only if the Product has at all times been used strictly in accordance with the terms of this warranty and has not been improperly or negligently handled. This warranty is not valid or effective if the Products are not installed according to the instruction manual. Improper handling of the Products automatically terminates and nullifies this warranty. This warranty does not cover problems arising from insufficient water pressure beyond the recommended limits, excessive water impurities/hardness beyond the norms of drinking water or improper care and cleaning. Guidelines for proper care and cleaning** are mentioned below. Kohler Africa is not responsible for labour charges, installation or other incidental or consequential costs. Kohler Africa is not responsible or liable for any special or consequential damages due to the defective Product, or due to defects of any component or part thereof. In no event shall the liability of Kohler Africa exceed the purchase price of the Product. Improper care and cleaning will void the warranty.
11. In the event of non availability of components or parts due to any reason whatsoever, neither Kohler Africa nor its Authorised Service Franchisee nor the Dealer will be responsible or liable for any delay that may be caused to service/repair of the Product. In the event that the same model or colour is not available for replacement, Kohler Africa or its Authorised Service Franchisee will replace the defective Product with an equivalent model or colour.
12. Kohler Africa may, at its discretion, retain any part or component replaced during the warranty period.
13. For Sanitaryware and Bathing products sold in Africa, only this Warranty document is applicable. Any reference to any other warranty document will not be considered.

This is Kohler Africa's exclusive written warranty. The decision of Kohler Africa regarding the warranty is final and binding. All disputes are subject to the exclusive jurisdiction of the courts of Johannesburg, South Africa only.

*** This applies to installations done within the geographical borders of Republic of South Africa only. Any installations done outside these borders must be completed by a professionally registered plumbing practitioner as required by the countries plumbing industry bodies, codes and regulations.

Care and cleaning guidelines:

- Always test your cleaning solution on an inconspicuous area on the product before applying it to the entire surface.
- Do not allow cleaners to sit or soak on the product.
- Use a soft, dampened sponge or cloth to clean. Never use abrasive material like a bristle brush or scouring pad.
- Wipe surfaces clean and rinse completely with water immediately after applying cleaners.
- In the rare occurrence of stubborn stains on Cast Iron surfaces, use abrasives or abrasive cleaners sparingly.
- Clean stainless steel surfaces once a week. Do not use cleaners containing chloride on stainless steel. If used, rinse the surface immediately to prevent corrosion.
- Wherever gold or platinum is used on decorative products, use only warm water to clean and then dry with a soft cloth.

KOHLER® Africa Mixer Limited Warranty

Kohler Africa's Mixers* used in normal residential and non residential commercial settings are warranted to be free of defects in the material and workmanship for the period of time set forth in the warranty coverage chart as detailed below, commencing from date of sale of Kohler Africa's Mixers* Products to the original purchaser ("warranty period").

Warranty Chart				
Products	Residential Use		Non Residential Commercial Use	
	CP Finish	Vibrant PVD	CP Finish	Vibrant PVD
KOHLER Mixers	10 Years	12 Years	5 Years	6 Years
Sensor Mixers and Other Commercial products	10 Years	12 Years	5 Years	6 Years
Sensors, Electronic Circuits and Electrical Assembly	1 Year	1 Year	6 Months	6 Months
Motor/Pump/Steam Generators	1 Year	1 Year	6 Months	6 Months
Battery for Sensor Mixers	Nil	Nil	Nil	Nil
DTV+Interface, System Controller & Digital Valve	3 Years + 2* Year	3 Years + 2* Year	6 Months	6 Months

* 2 year extended warranty on DTV+ Interface, System Controller & Digital Valve is conditional on DTV+ Interface, System Controller & Digital Valve. This can only be availed by filling the Warranty Registration booklet available at the dealer at the time of purchase.

During the warranty period if (in the opinion of Kohler Africa) the defect is due to defects in the material or workmanship, Kohler Africa or its Authorised Service Franchisee/Representative will, at its sole option, repair or replace free of cost, any defective component or part of the Sanitaryware and Bathing product, subject to the terms and conditions described below:

1. The Product Installation was duly completed by a professional plumber with a valid registration with the Plumbing Industry Registration Board (PIRB) of South Africa in one of the following categories: Licenced Plumbing Practitioner, Master Plumber or Director Plumber. Proof of registration may be requested by Kohler Africa. ***
2. Kohler Africa or its Authorised Service Franchisee solely can service/repair the Product.
3. Kohler Africa and its Authorised Service Franchisee will make unit repairs or replacements under this warranty within a reasonable period of time, as determined by Kohler Africa or its Authorised Service Franchisee performing the repair or replacement.
4. This warranty is only effective if proof of purchase (original sales receipt) is provided with all warranty claims or requests.
5. The service/repair of the warranty shall be provided only within the municipal limits of the town or city where the Branch Office of Kohler Africa or its Authorised Service Franchisee is located.
6. If the Product is installed beyond the municipal limits of Kohler Africa's Branch Office/Authorised Service Franchisee locations, any and all costs and expenses incurred for repair/service of the Products in respect of a) to and from travel of service personnel and b) transportation of the Product and/or spare parts and/or components from the location of Kohler Africa's branch office or Authorised Service Franchisee to customer's location and back shall be borne wholly and solely by the customer at the prevailing rates, and Kohler Africa shall not be liable for any damage caused to the Product in transit or delivery for repair.
7. Warranty period will start from date of invoice and shall automatically terminate upon the expiry of the warranty period even if the Product has not been installed after purchase or has not been in the use for any part or whole of the warranty period for any reason whatsoever.
8. This warranty does not include payment of or responsibility for any excise duty, central taxes, state taxes and / or other local taxes assessed to the parts supplied or repaired during the warranty period.
9. In the event of any repairs/replacement of any parts of the Product, this warranty shall thereafter continue and remain in force only for the unexpired period of the warranty. Any time consumed for the repair/ replacement of parts including transit

of the Product or its parts or any period during which the Product has not been used whether under warranty or otherwise shall not be excluded from the warranty period and no extension of the warranty period will be granted.

10. This warranty remains applicable only if the Product has at all times been used strictly in accordance with the terms of this warranty and has not been improperly or negligently handled. This warranty is not valid or effective if the Products are not installed according to the instruction manual. Improper handling of the Products automatically terminates and nullifies this warranty. This warranty does not cover problems arising from insufficient water pressure beyond the recommended limits, excessive water impurities/hardness beyond the norms of drinking water or improper care and cleaning. Guidelines for proper care and cleaning** are mentioned below. Kohler Africa is not responsible for labour charges, installation or other incidental or consequential costs. Kohler Africa is not responsible or liable for any special or consequential damages due to the defective Product, or due to defects of any component or part thereof. In no event shall the liability of Kohler Africa exceed the purchase price of the Product. Improper care and cleaning will void the warranty.
11. In the event of non availability of components or parts due to any reason whatsoever, neither Kohler Africa nor its Authorised Service Franchisee nor the Dealer will be responsible or liable for any delay that may be caused to service/repair of the Product. In the event that the same model or colour is not available for replacement, Kohler Africa or its Authorised Service Franchisee will replace the defective Product with an equivalent model or colour.
12. Kohler Africa may, at its discretion, retain any part or component replaced during the warranty period.
13. For Sanitaryware and Bathing products sold in Africa, only this Warranty document is applicable. Any reference to any other warranty document will not be considered.

This is KOHLER® Africa's exclusive written warranty. The decision of Kohler Africa regarding the warranty is final and binding.

The ideal cleaning technique is to always blot dry any water from metal surfaces. Allowing water to evaporate on metal will form water deposits. It is important to use a dabbing action to dry metal, not an abrasive or rubbing action. Cleaning with a damp sponge and buff drying should keep your mixer looking beautiful.

* All recommended fixture plumbing accessories, including but not limited to, grip rails, trim kits, drains: Duostrainer® sink strainers and soap/lotion dispensers; are warranted to the original purchaser to be free of defects in material and workmanship for one year from date of purchase.

** Never use cleaners containing abrasive cleansers, ammonia, bleach, acids, waxes, alcohol, solvents or other products not recommended for chrome. This will void the warranty.

Care and cleaning guidelines for Chrome and Vibrant® PVD colors/finishes

- Always test your cleaning solution on an inconspicuous area on the product before applying to entire surface.
- Use a soft dampened sponge or cloth to clean, never use abrasive material like a bristle brush or scouring pad.
- Do not use cleaners containing ammonia, bleach, or acid. Most toilet cleaning products have high acidic content which can damage the chrome finish, hence they should not be used to clean chrome finish.
- Use a mild detergent (such as dishwashing soap). Do not use abrasive cleaners.
- Rinse and be sure to wipe the entire surface dry.
