

AT HOME WITH
a new deck

A photograph of a wooden deck overlooking a lake. The deck is made of dark brown wood and has a white railing with a wooden handrail. There are several potted plants with purple flowers on the deck. In the background, there is a large body of water, a grassy area, and a row of houses in the distance under a clear blue sky. The sun is shining brightly from the top left, creating a lens flare effect.

NOTHING
COMPARES
to HOME

At Trex, we believe the appeal of home extends past its four walls—that just beyond its doors sits a beautiful opportunity waiting to be built, board by board, baluster by baluster, without complication or worry. And that's our promise to you: to offer only high-performance decking and railing that withstand time, while honoring your home's particulars.

what matters to you

MATTERS TO US, TOO

Eco-consciousness

From upcycling used materials to planting a tree with each piece of furniture ordered, Trex prides itself on being green. In fact, we're one of the largest plastic recyclers in the US.

Life al fresco

Shade and storage exactly where you need it. Handsome, hardy furniture enjoyed year after year. Keeping you outdoors is an endeavor we do not take lightly.

Smart design

This means a hidden fastener system that secures with nary a screw. And soft white lighting that brings new meaning to overlooked nooks. Our design team fusses over the tiniest details so that you don't have to.

SOME IMPORTANT DECISIONS

We get it: a deck is an investment.

And while it may take some time to nail down the particulars, we've created a few tools that will make the decision-making process all the more easy, and dare we say, fun.
