Lenox Butterfly Meadow Collection, Lenox Garden Vases

A Visual Feast: Landscape the Buffet

Notice how things are different heights on this table? Doubling the Butterfly Meadow Footed Cake Plates creates a second tier of fun, while high and low vases make for an interesting “candyscape”. Even the Butterfly Meadow Dessert Plates are stacked with more plates in one stack than the other, for visual interest.

These plates also are great on a buffet because the set contains four different border colors, so each time a guest takes one, another pretty color appears beneath.
