### Bar 101

It is not a cocktail party without a mixing station. Here, you put out all of what your guests might need to mix the cocktail of their choosing. Lenox offers everything you need. This setup includes the Tuscan Classics shaker with strainer, stainless steel ice bucket, Adorn crystal four-piece double old fashioned glasses, and three Tuscan Classics decanters: an aerating wine decanter, a graceful 32 ounce crystal decanter for wine or liquor and an elegant pierced crystal decanter. Guests won't be able to resist helping themselves to cocktails from this lively decanter-scape.

Another fun element is to assign your most fervent amateur mixologist guests to take shifts at the bar creating their signature cocktails. People love participating and sharing their expertise, and many people across the country are trying their hand at the art of nuanced and delicious cocktail.
