EverLast Technology

Brierwood engineered wood is reinforced with EverLast - a premium and durable topical treatment - that will make your floors last in any commercial setting.

EVERLAST
HARDWOOD PROTECTION SYSTEM

EverLast® is a hardwood protection system that provides five times greater dent protection, four times greater scratch protection and a lifetime wear warranty.

WetProtect
THE RIGHT KIND OF WATERPROOF

Mohawk's UltraWood utilizes our WetProtect technology. It contains water-tight joints, our waterproof finish and a lifetime surface and subfloor waterproof warranty—making it the right kind of waterproof.

Flooring that's ready for whatever lands on it. The EverLast hardwood layer is reinforced to create a floor that is 5 times more dent resistant than ordinary hardwood floors.

Brierwood Construction

Performance Wear Layer

The performance wear layer is a two-part system that offers ultimate scratch and wear protection, all the while remaining flexible and pliable.

Impact Resistant Wood

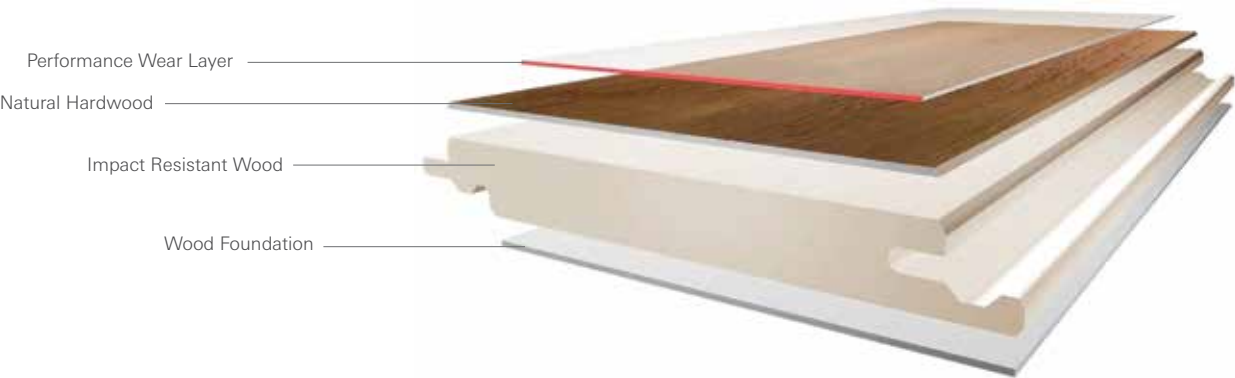

The impact resistant wood layer absorbs the energy of impacts and provides five times greater dent protection.

Natural Hardwood

The natural hardwood layer is engineered to showcase the natural beauty of hardwood and work together with the impact resistant wood layer.

Wood Foundation

The wood foundation balances with the natural hardwood to manage expansion and contraction.

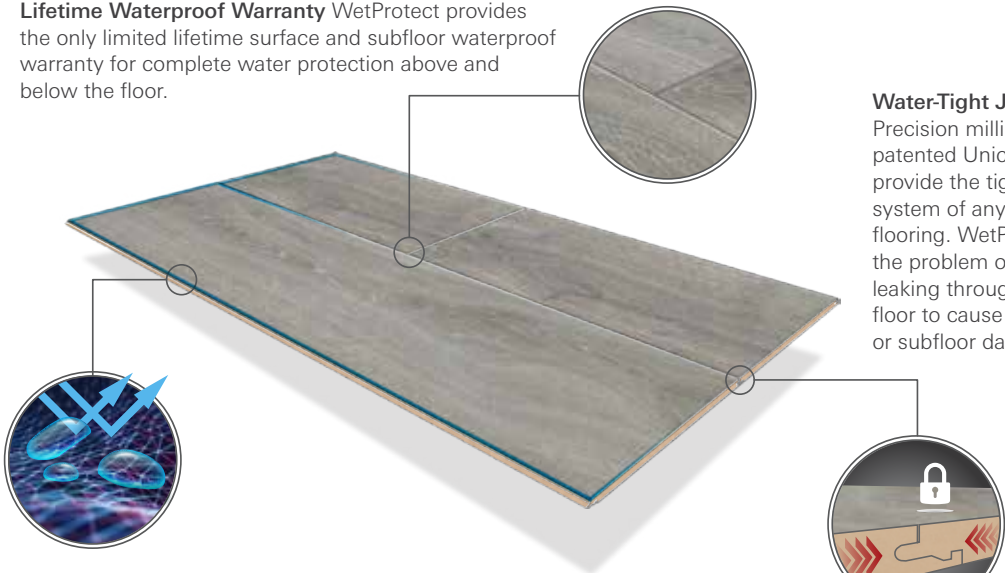

WetProtect

THE RIGHT KIND OF WATERPROOF

WetProtect, the next evolution of waterproof protection. With water-tight joints that prevent water from leaking through gaps in the flooring to cause mold, mildew, or subfloor damage, and a unique finish that traps moisture on the surface where it can evaporate or be wiped away easily, WetProtect is full-coverage waterproofing.

Lifetime Waterproof Warranty WetProtect provides the only limited lifetime surface and subfloor waterproof warranty for complete water protection above and below the floor.

Water-Tight Joints

Precision milling and patented Uniclic technology provide the tightest locking system of any hard surface flooring. WetProtect solves the problem of water leaking through gaps in the floor to cause mold, mildew or subfloor damage.

Waterproof Finish WetProtect flooring products are engineered with a proprietary waterproof finish that repels water away from the joints and traps moisture on the surface, where it can evaporate or be easily cleaned.

Mohawk Industries, Inc. warrants its adhesives for the life of the original installation only when a Mohawk Industries style (product) is installed. Mohawk's floor preparation procedures must be followed to ensure that the substrate has been prepared properly. Failure to use Mohawk Industries adhesives or to follow Mohawk's floor preparation procedures will void all lifetime adhesive warranties. Please contact your local Sales Representative for installation guidelines.

Mohawk is providing this architect folder for the purpose of promoting our commercial business. Color may vary from dye lot to dye lot. Substitution of material may be made due to improved technology, supply limitations or other factors. The performance of this product is not affected by such variations. We recommend the use of chair pads on all commercial installations.
