Walk All Over Tile

- Extends the life and appearance of interior floors
- Traps excess moisture and dirt at the entrance.
- Enhanced safety against slip and falls.
- Decreased maintenance cost over time.

## WalkOff Entryway System

Walked in soil and moisture are the main causes of premature wear and eventual replacement of flooring interiors. Effective placement of Aladdin's walkoff carpet tiles can reduce the amount of soil and moisture entering a facility by up to 91%. This means lowered maintenance costs and extended life for all floor coverings beyond the entry.

### Performance Innovations:

Aladdin's walkoff carpet tile are designed specifically to protect facilities against excess dirt and moisture, all while providing enhanced safety with a non-slip surface in high moisture areas.

- Aladdin's walkoff carpet tile engineering provides a Class I fire rating - a key aspect when specifying carpet for retail and general public entryways.
- The use of heavy 'scraper' yarns provides for ideal soil removal and collection. Each square yard can hold up to 5.6 lbs. of sand. That's 2.4 times its normal weight.
- Aladdin's walkoff carpet tiles can be easily cleaned by vacuuming or extracting. You can also remove individual tiles for cleaning or to replace damaged areas.
