

Resilient Sheet Weld Rods

Aladdin Commercial's Solid Color Heat Weld Rods are recommended for our Resilient Sheet Collections. The weld rods are used for seaming, wayfinding or accenting commercial resilient sheet. The recommended weld rod chart shows suggested color coordinates, although final weld rod color selection is determined by specifier or end-user based on the flooring design.

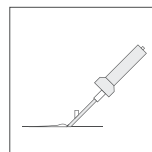

SUGGESTED WELD ROD COORDINATES

	RESILIENT SHEET		WELD ROD			
	COLOR #	COLOR NAME	STYLE #	COLOR #	COLOR NAME	COLOR VISUAL

HIGH ROAD	959	Misted	AWELD	SW937	Fog Gray	

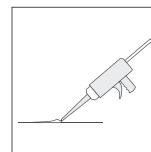

Note: Weld Rod sold in rolls only - 164 LF/roll

HEAT WELD / COLD WELD

Optional heat welding or cold welding techniques can be used to create seamless, sanitary flooring that's easy to maintain. Place order using "WELDC" style number, followed by the color number. Place order using "INFZC" for the Infuze Seam Sealer.
