

LAVIANA

GLAZED PORCELAIN TILE

Inspired by the unique grain, knots and rich color movement of exotic acacia wood species, Laviana glazed porcelain collection delivers incredible, authentic hardwood visuals. With a history of successful wood look offerings, Mohawk continues this trend in Laviana with strikingly realistic graphics created by the manufacturer's exclusive Reveal Imaging technology. Complete with a wire-brushed texture that perfectly emulates real wood along with pressed edges, Laviana is available in the following warm shades: Cinderwood, Sandlewood, Beachwood and Spicewood. Consumers can craft these sophisticated floors in a size package that features a pressed 6" x 36" tile and a 3" x 18" bullnose.
