CRAFTED CONVERGENCE

Experience Crafted Convergence, an intriguing soft surface portfolio inspired by Durkan's collaboration with the Museum of Indian Arts & Culture and the Museum of International Folk Art in Santa Fe, N.M. The Crafted Convergence patterns draw inspiration from broad and varied sources: from Native American pottery and basketry to Japanese and African garments. Translating the inspiration into Durkan's broadloom and carpet plank, the design team chose to honor the original materials rather than replicate them. The collection celebrates the skillful use of negative and positive space so elegantly rendered in the handmade originals from cultures continents apart.
