Edgewalk

Embark on a captivating design expedition with Edgewalk, our latest collection of ten meticulously curated packages inspired by the distinctive geographic regions of the United States: Northeast, Southeast, and Southwest.

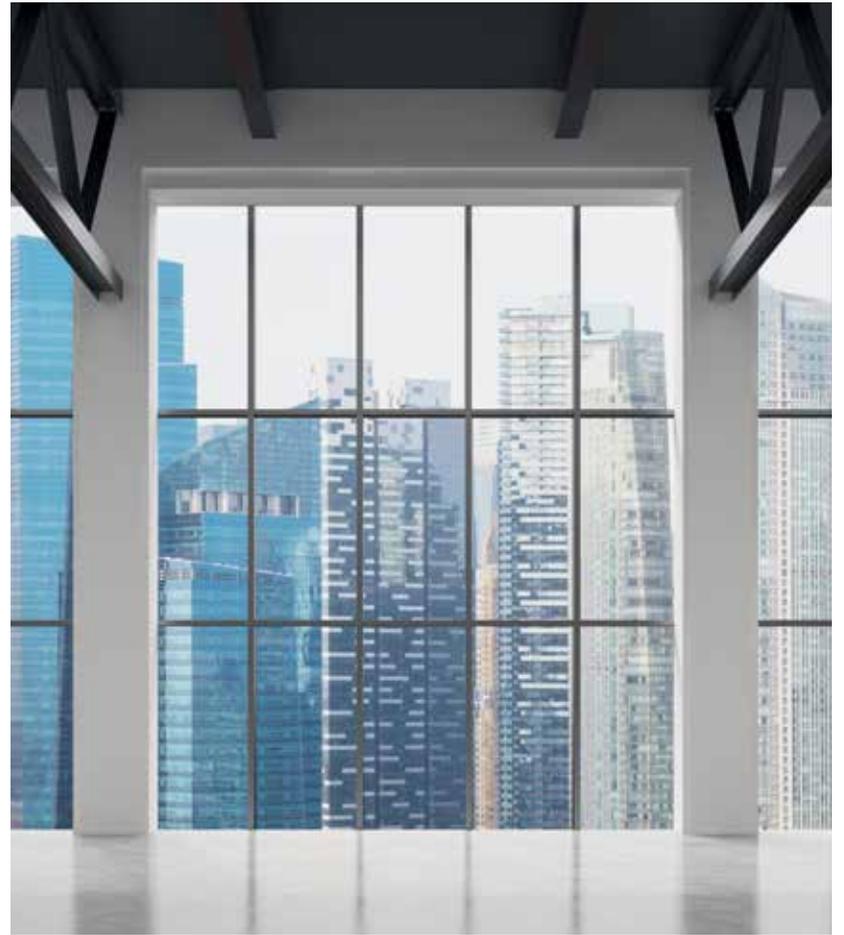

Each theme embodies the spirit and essence of its respective region, inviting you to explore the diverse beauty of America's vast landscapes through interior design.

## NORTHEAST INDUSTRY

This design approach takes inspiration from the Northeast by celebrating its authentic industrial past and gritty, edgy aesthetic. The sophisticated monochromatic color scheme of blacks, whites, and grays sets the tone for a distinctive ambiance, painting a vivid picture of urban resilience and architectural prowess.

The use of rugged textures amplify the industrial vibe, while carefully selected wood accents add warmth and earthiness, creating a striking contrast that harmonizes the old and the new. Our designs epitomize the fusion of raw, rustic character with modern sensibility, resulting in an arresting and timeless aesthetic.

## SOUTHEAST CHARM

Designs that draw inspiration from the Southeast region are marked by a cool color scheme consisting of blues, whites, greens, and sandy beige tones, evocative of the colors found in the ocean, sky, and sand. This design style is also notable for its use of bold patterns and textures, such as botanical prints, lively stripes, and intricate seascape motifs.

These curated designs celebrate the Southeast's unique aesthetic, where the tranquility of the ocean meets the vibrancy of the land.

## SOUTHWEST MYSTIQUE

Designs that draw inspiration from the Southwest region aim to capture the natural beauty, warm colors, and cultural richness of the area, and create an inviting atmosphere. The warm and earthy color scheme, which includes shades of burnt orange, terracotta, sandy beige, and rich browns, evokes the vast deserts and iconic landscapes of the Southwest.

Incorporating inspiration from natural materials such as wood, adobe, and mud reinforces the connection to the rugged terrain, while blending rustic and contemporary elements creates cozy spaces with intricate patterns that celebrate the region's rich history and culture. This carefully curated design concept highlights the unique character of the Southwest, where timeless beauty meets ancient mystery.

## Mohawk Group | *Personal Studio*™

Introducing Personal Studio (P.S.), our all-in-one digital platform for creating stunning, custom flooring solutions. With P.S., you can visualize your designs in real-time, order samples, and experiment with different colors, textures, and patterns until you find the perfect combination for your project.

Whether you're looking to make a bold statement or create a subtle and sophisticated look, P.S. has everything you need to design a floor that perfectly captures your vision.

## **better for people**

You won't find red-list chemicals in many of Mohawk Group's products, because we care about the contents of our products and the effect it has on your health. We Declare our products with a "nutrition label," so you see exactly what's going into your space.

## **better for the planet**

All Mohawk Group products are Beyond Carbon Neutral, meaning they give back more than they take across their lifetime, for a net-positive impact on the environment.

## **better for performance**

PDI and Pattern Perfect is available with Colorstrand fiber and a variety of backings and coatings. With performance at top of mind, PDI and Pattern Perfect flooring is made to last, keeping more products out of landfills.

## **RECOVER**

At Mohawk Group, we will ReCover your old commercial carpet. Simply call or send us a message to let us know where your project is located and what materials need recycled. We'll send a quote, a truck, and deliver the product to a regional recycler. We'll take any manufacturer's carpet, with no minimums.
