GOONJ

Goonj means Echo. Echoes from our past merging subtly into the present. The growing need to reconnect with our heritage to fuel evolving trends is constant. Patterns from this collection are influenced by floral elements from the William Morris era. Playing with traditional motifs appearing and disappearing through various textured layers is the key driver to adding visual interest. Definity technology helps emphasize these layers of design through different levels in carpet simulating the look of being hand crafted.

—Arnavaz Barshan

Goonj is featured in Durkan’s innovative Definity technology which redefines luxury performance with patterning and textures never before seen in the industry. Enhanced surface detailing provides more than twice the definition of any other high-end hospitality carpet. Durkan’s exclusive technology creates precision sculpted dimension for incredible visual and tactile experiences.
