Natureverse

Natureverse explores how temperature and landscape shape our sensory and emotional experiences. In a world increasingly shaped by digital spaces this collection invites us back to the raw beauty and quiet intelligence of the natural world.

Inspired by nature's extremes—both real and imagined—the collection captures the essence of place through the shimmer of heat, the hush of frost, and the subtle shifts between atmospheric warmth and shadow.

A palette of 16 curated colors reflects nature's tonal depth, creating layered, immersive environments that evoke memory and emotion. More than flooring, Natureverse is a sensory experience—grounding modern interiors in something timeless, elemental, and real.

"Natureverse is the spirit that lives inside every one of us. The fresh breath of air you get when you go outside and the memories of playing in the forest when we were kids. That is what makes this collection so special and heartwarming."

Cool Palette

The icier atmosphere of this palette derives from deeper grays and blues, akin to a windswept coastline with ripples of clear, cold water. Warmer taupes round out the colors, with brighter pops of green calling to mind Spring's thaw and the feeling of nature's renewal.
