

Mohawk's GenuEdge™ technology features the most realistic hardwood looks ever seen in laminate and luxury vinyl flooring. This superior visual effect is achieved through an innovative process that allows the paper to wrap over the plank's edges, enhancing the hardwood realism.

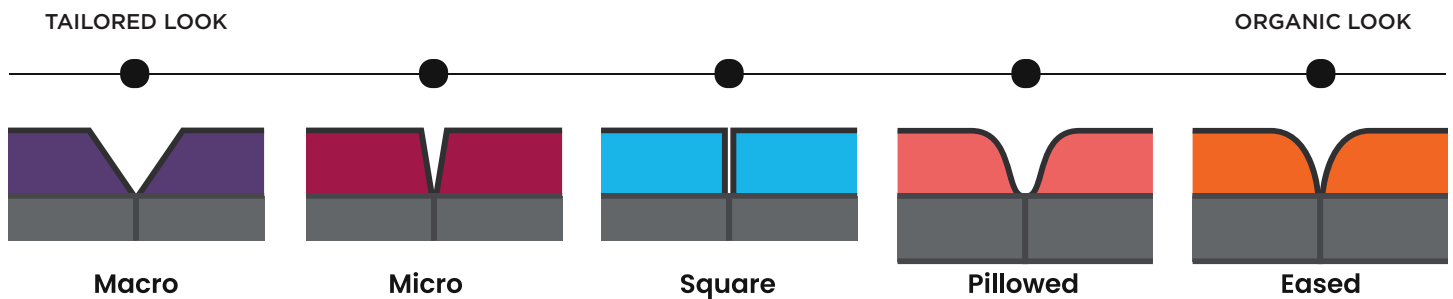

**Outstanding Beauty.  
Unbeatable Performance.**

## Bevel Types

## Comparisons

### GENUEDGE

- Rolled edge creates a more realistic wood visual.
- Plank surface goes from edge to edge while creating a realistic break between planks.

### MILLED BEVEL EDGE

- Angled cut edge is covered by transfer foil or paint.
- Creates a distinct break between installed planks.
