

Chromatic Cadence

Chromatic Cadence

Color is like music: it carries you into a different frame of mind, sparking new emotions and inspiring deeper connections to your world. With Chromatic Cadence, we were inspired by the work of artist Yvette and her use of music as a starting point for her expressive, color-filled paintings. The Chromatic Cadence modular carpet collection imagines color as melody, creating a tonal rhythm across the floor and inviting flights of imagination or meditative calm.

The water-like pattern allows delicate shifts in tone while grounding the space with a field of color. In 25 hues, Chromatic Cadence offers options that encourage creativity and wellbeing in a space. This simple yet versatile style provides endless possibilities for expressive design.

Chromatic Cadence combines our EcoFlex™ AIR backing system with Colorstrand® fiber to deliver modular carpet that leads the industry in durability, cleanability, performance, and sustainability. This collection is Beyond Carbon Neutral for a net-positive impact in carbon. Chromatic Cadence supports Mohawk's sustainability efforts and commitment to Net Zero carbon emissions by 2040, sustaining a better ecological community.

WITH CHLORAGUARD TECHNOLOGY

In addition to EcoSentry Plus Soil® and Stain Protector, Chromatic Cadence features Chloraguard full treatment bleach protection, the ideal choice for innovative performance.

EcoFlex™ AIR

CARPET TILE BACKING

The next evolution in cushion backed carpet tile, EcoFlex AIR offers substantial moisture management, sound reduction and enhanced comfort under foot.

NET POSITIVE IMPACT

All of our flooring products go Beyond Carbon Neutral, meaning they are 100% carbon neutral plus an additional 5% carbon offset for a Net Positive impact.

Declare.™

RED LIST FREE

This collection is Living Building Challenge (LBC) Declare Red List Free, which means it is free from any materials, chemicals or elements that are known to pose serious risks to human health or the environment.

SEAMLESS TRANSITIONS

This collection does not require transition strips when used with any of our 4.5 or 5 mm LVT products, reducing installation time and costs.

Custom Installation

EcoFlex™ AIR

EcoFlex AIR exceeds the demanding expectations of our customers and improves aspects of comfort and acoustics while eliminating moisture testing. Combined with our Colorstrand Fiber, this tile is Beyond Carbon Neutral.

Worry-Free Installation

EcoFlex AIR removes concerns related to subfloor moisture and old adhesive residue, allowing installation on high-moisture slabs and over existing adhesives. EcoFlex AIR can even be installed without any moisture testing, provided there are no visible signs of moisture.¹

Enhanced Comfort

The integrated cushion provides greater comfort and helps reduce fatigue, supporting occupant productivity.

Improved Acoustics

With EcoFlex AIR, there is virtually no sound transmission between floors. In-room noise is also drastically reduced. This decrease in auditory distraction helps contribute to feelings of wellbeing.

Simplified Maintenance

EcoFlex AIR carpet tile features Colorstrand Fiber, engineered to keep your flooring looking newer longer.

¹ See installation guidelines for additional details.

Yvette

Yvette is an artist and a veteran who spent more than 20 years in the Army. Her desire to create familiarity and comfort within spaces has influenced her paintings in a profound way. “Although my family is what’s most important in my life, painting is what really keeps me going,” she explains. “It reminds me that I am not limited due to my disabilities. I can paint every story I feel.”

Yvette’s paintings always begin with music; from that point she incorporates her mood, dreams, recent experiences, and most importantly the support and inspiration she receives from her family. The empowerment Yvette has gained through her art is perhaps the most powerful lesson that painting has taught her: “I am invincible. The only thing that can slow me down is running out of paint.”

Each time you specify from collections in our ArtLifting partnership, we’re donating to Susan G. Komen through our Specify for a Cure program. Join us in leveraging the power of art to bring people together and uplift our communities.

Better for People and Planet

Our future depends on the work we do today. At Mohawk, commitment to our planet extends beyond just products and processes: it's how we challenge ourselves to do and be better every day, how we make decisions, how we reinvest in our people and our planet, and how we define what matters most as we work to deliver value for generations to come.

Beyond Carbon Neutral

PLUS an additional 5% for a net-positive impact on the climate.

Net Zero Carbon Emissions by 2040

We've signed The Climate Pledge to be net zero by 2040 and have already started major changes to reduce our carbon footprint.

Neutral Is Not Enough

With the holistic improvement of the life cycle of our flooring products – from full product transparency, to reduced water usage in manufacturing, to carbon neutrality and beyond – better is just the beginning.

Installation Instructions:

Mohawk Group warrants its adhesives for the life of the original installation only when a Mohawk Group style (product) is installed. Mohawk's floor preparation procedures must be followed to ensure that the substrate has been prepared properly. The use of Mohawk branded adhesives is required to ensure optimum results and are the only approved adhesives warranted by Mohawk. Please contact your local Sales Representative for installation guidelines.

These patterns contain inherent characteristics which may result in pattern run off and/or pattern appearance variations at the seams or tile edges (darker or lighter pattern lines). These characteristics are inherent in the patterns and are not manufacturing defects. Consideration to these characteristics should be given when selecting an installation method.

Chair pads are recommended under office chairs with roller casters to preserve appearance retention, act as a deterrent toward delamination and to prevent premature or accelerated wear. Walk-off tiles from the Tuff Stuff II Collection are recommended at entryways to reduce soiling.

Mohawk Group is providing this architect folder for the purpose of promoting our commercial business. This folder and its samples shall remain the property of Mohawk Group. Color may vary from dye lot to dye lot. Substitution of material may be made due to improved technology, supply limitations or other factors. The performance of this product is not affected by such variations.
