# Adaptive Alliance

Drawing on architectural grids, raw materials, and the movement of people through shared spaces, Adaptive Alliance expresses the energy of the built environment as a dialogue between structure and the human touch.

The collection offers broadloom and modular carpet styles that are rooted in the spirit of *Techne*—the union of craft, practical knowledge, and thoughtful making. Featuring a hint of metallic yarn in the colorways, each pattern creates a subtle sense of structure enlivened by spontaneous, organic movement.

As Book Two of the Adaptive Alliance collection, these styles are the subtly textured companions to the patterns in Book One.

Adaptive Alliance features two styles of modular carpet in your choice of platform: Duracolor® Tricolor fiber with EcoFlex® ONE carpet tile backing, or ColorStrand® fiber with EcoFlex® AIR carpet tile backing. The two broadloom styles are available in ColorStrand® fiber with our Weldlok® broadloom backing. No matter which product you choose, this collection is Beyond Carbon Neutral for a net-positive impact in carbon. Adaptive Alliance supports Mohawk's sustainability efforts and commitment to Net Zero carbon emissions by 2040, sustaining a better ecological community.

Duracolor Tricolor's new innovative modified-delta shape and optical core optimize color clarity, strength, stain resistance, and soil hiding and removal. As a result, Duracolor Tricolor delivers the ultimate synthesis of brilliant color and unsurpassed performance.

## EcoFlex® ONE

Harnessing proven technology and advanced materials, EcoFlex® ONE delivers an all-in-one solution for optimal flooring performance and reduced costs, while supporting greater wellness for people and planet.

Since 2022, all Mohawk Group commercial products are beyond carbon neutral plus an additional 5% handprint, for a net-positive impact on the environment.

For over 15 years ColorStrand fiber has continually exceeded expectations. With unsurpassed colorfastness and EcoSentry Plus Soil® and Stain Protector, it delivers both lasting beauty and value.

## Weldlok®

Weldlok is Mohawk Group's standard broadloom backing system. It can be enhanced with OnGuard and AIR to meet project demands for moisture barriers and/or attached cushions.

## EcoFlex® AIR

The next evolution in cushion backed carpet tile, EcoFlex® AIR offers substantial moisture management, sound reduction and enhanced comfort under foot.

### ADDITIONAL FEATURES

- LEED, WELL & LBC Eligible
- CRI Green Label Plus
- NSF 140 Platinum (Duracolor)
- NSF 140 Gold (ColorStrand)

## DESIGN

Width	12' width (3.66 m)
Pattern Repeat	
Geo Path	36" (W) x 41.1" (L)
Rhythmic Drift	36" (W) x 43.6" (L)
Surface Appearance	Textured Patterned Cut & Loop
Fiber Type	ColorSrand® SD Nylon
Dye Method	Solution Dyed
Colors Available	9

## PERFORMANCE

Construction	Tufted
Gauge	1/12" (47.00 rows per 10 cm)
Tufted Weight	32 oz/yd <sup>2</sup> (1,085 g/m <sup>2</sup> )
Stain Release Technology	EcoSentry Plus Stain Protection
Soil Release Technology	EcoSentry Soil Protection
Backing Material	Weldlok®
Flammability	ASTM E 648 - Class 1 Glue Down
Smoke Density	ASTM E 662 - Less than 450
Static Propensity	AATCC 134 - Under 3.5 KV

## SUSTAINABILITY

Certification	Declare Red List Free
Indoor Air Quality	Green Label Plus Certified
NSF 140	Gold
Carbon	Net Positive Carbon (Neutral +5%)

## SERVICE

Warranties	Lifetime Limited Wear Warranty, Lifetime Limited Colorfastness to Light, 10 Year Limited Colorfastness to Atmospheric Contaminants, 10 Year Stain Warranty, Lifetime Static
------------	---

Mohawk Group warrants its adhesives for the life of the original installation only when a Mohawk Group style (product) is installed. Mohawk's floor preparation procedures must be followed to ensure that the substrate has been prepared properly. The use of Mohawk branded adhesives is required to ensure optimum results and are the only approved adhesives warranted by Mohawk. Please contact your local Sales Representative for installation guidelines.

**These patterns contain inherent characteristics which may result in pattern run off and/or pattern appearance variations at the seams or tile edges (darker or lighter pattern lines). These characteristics are inherent in the patterns and are not manufacturing defects. Consideration to these characteristics should be given when selecting an installation method.**

Chair pads are recommended under office chairs with roller casters to preserve appearance retention, act as a deterrent toward delamination and to prevent premature or accelerated wear. Walk-off tiles from the Tuff Stuff II Collection are recommended at entryways to reduce soiling.

Mohawk Group is providing this architect folder for the purpose of promoting our commercial business. This folder and its samples shall remain the property of Mohawk Group. Color may vary from dye lot to dye lot. Substitution of material may be made due to improved technology, supply limitations or other factors. The performance of this product is not affected by such variations.
