

Color Study

Color Study 30 | 36 | 42 Hue-ology

Color Study 30 | 36 | 42

Color Study is a solid level cut pile that brings a sense of luxury and elegance to any interior environment. Available in three different ounce weights, Color Study works perfectly as a field carpet or as a border, inset, or wall base coordinate to any of our other soft surface collections.

Weight: 30 oz/yd² | 36 oz/yd² | 42 oz/yd²

Size: 12' width

Fiber: Colorstrand® Nylon

Hue-ology

For a deeper textural effect, Hue-ology offers a solid level cut and loop construction. The additional loop texture sits within the cut pile creating a more variegated visual dimension.

Weight: 28 oz/yd²

Size: 12' width

Fiber: Colorstrand® Nylon

Color Study 363 Vivid Carmine and 858 Tooled Suede
Cover: Hue-ology 363 Vivid Carmine, Color Study 363 Vivid Carmine and 858 Tooled Suede

Color Study

Color Study is a solid cut-pile texture that works beautifully in a variety of contract interiors. Beyond standard broadloom, Color Study's uses expand to connect all of your flooring and finish selections. Complete your design with Color Study as a border, inset, door fill, accent, stairwell or wall base with a selection of 3 face weights and 36 curated colorways.

INSET/BORDER

Color Study perfectly pairs with Mohawk Group's other broadloom products, and allows you to easily create accents, borders, insets and more.

SERVICE

Warranties	Lifetime Limited Wear Warranty, Lifetime Static
------------	---

Mohawk Group warrants its adhesives for the life of the original installation only when a Mohawk Group style (product) is installed. Mohawk's floor preparation procedures must be followed to ensure that the substrate has been prepared properly. Failure to use Mohawk Group adhesives or to follow Mohawk's floor preparation procedures will void all lifetime adhesive warranties. Please contact your local Sales Representative for installation guidelines.

These patterns contain inherent characteristics which may result in pattern run off and/or pattern appearance variations at the seams or tile edges (darker or lighter pattern lines). These characteristics are inherent in the patterns and are not manufacturing defects. Consideration to these characteristics should be given when selecting an installation method.

Chair pads are recommended under office chairs with roller casters to preserve appearance retention, act as a deterrent toward delamination and to prevent premature or accelerated wear. Walk-off tiles from the Tuff Stuff II Collection are recommended at entryways to reduce soiling.

Mohawk Group is providing this architect folder for the purpose of promoting our commercial business. This folder and its samples shall remain the property of Mohawk Group. Color may vary from dye lot to dye lot. Substitution of material may be made due to improved technology, supply limitations or other factors. The performance of this product is not affected by such variations.
