

Crossing Current

Filtering Form Refined Pass

Rivers and waterways are an intrinsic part of our innate reverence towards nature. As the foundation of life, water sustains humankind, animals and plants, creating unquestionable interconnectivity. A stream or river is more than just the flowing water that can be seen on the surface. Often the smaller facets that are overlooked are the most beautiful and profound.

Crossing Current's biophilic design mimics the natural sediments found along riverbanks and throughout the riverbed.

A selection of 8 colorways reference the nutrient-rich sediment of the Hyporheic zone — the part of the river that supports the ecosystem through natural filtration. Both styles feature a subtle color wash that pays tribute to the mesmerizing natural palette found in the riverbed.

Crossing Current

Beyond its poetic relationship to our waterways, **Crossing Current** is designed for both beauty and performance. At the confluence of the Maury and James rivers in Glasgow, VA, we create these 24" X 24" modular carpet tiles at our Living Site facility using our ColorStrand® solution-dyed nylon fiber and dematerialized EcoFlex™ Matrix backing.

LIVING PRODUCT CERTIFICATION

Produced at our Living Site, Crossing Current is Net Positive for both carbon and water, and achieves Living Product Certification from the International Living Future Institute by complying with multiple imperatives of all seven petals.

MERGEABILITY

Crossing Current is crafted with the mergeability of various dye lots, so ongoing maintenance and selective tile replacement will keep your flooring installation looking great for years to come.

FLEXLOK

EASY INSTALLATION

Worry-free installation with FlexLok tabs that can be installed with no moisture testing, provided no signs of visible moisture are present.

QUICKSHIP

Crossing Current is available through Mohawk Group's QuickShip and Ready to Ship programs. Visit mohawkgroup.com to view available colors and inventories.

SEAMLESS TRANSITIONS

No transition strips are needed when coordinating Crossing Current with any of our 2.5mm LVT products, reducing installation time and costs.

ADDITIONAL FEATURES

- Lifetime Limited Carpet Tile Warranty
- LEED, WELL & LBC Eligible
- Declare Red List Free
- CRI Green Label Plus
- NSF 140 Gold

Coordinated Solutions

Mohawk Group's innovative flooring solutions offer customers a simple specifying experience with different products working together for one purpose. Complete your project with ease with coordinated products and colors across our full portfolio of soft and resilient flooring, as well as finishing accessories.

LIVING LOCAL STONEWORK

Crossing Current can be paired seamlessly with our hard surface 2.5mm LVT products like Living Local Stonework. This worry-free solution offers design flexibility and superior performance to create beautiful, productive spaces.

Installation Instructions:

Mohawk Group warrants its adhesives for the life of the original installation only when a Mohawk Group style (product) is installed. Mohawk's floor preparation procedures must be followed to ensure that the substrate has been prepared properly. Failure to use Mohawk Group adhesives or to follow Mohawk's floor preparation procedures will void all lifetime adhesive warranties. Please contact your local Sales Representative for installation guidelines.

These patterns contain inherent characteristics which may result in pattern run off and/or pattern appearance variations at the seams or tile edges (darker or lighter pattern lines). These characteristics are inherent in the patterns and are not manufacturing defects. Consideration to these characteristics should be given when selecting an installation method.

Chair pads are recommended under office chairs with roller casters to preserve appearance retention, act as a deterrent toward delamination and to prevent premature or accelerated wear. Walk-off tiles from the Tuff Stuff II Collection are recommended at entryways to reduce soiling.

Mohawk Group is providing this architect folder for the purpose of promoting our commercial business. This folder and its samples shall remain the property of Mohawk Group. Color may vary from dye lot to dye lot. Substitution of material may be made due to improved technology, supply limitations or other factors. The performance of this product is not affected by such variations.
