Playbook Purpose

This playbook provides ExxonMobil with a global guideline for selecting appropriate flooring solutions based on functional requirements, expected foot traffic, and maintenance needs across office, educational, and industrial (oil refinery) environments. It is designed to ensure consistency, enhance performance, and support long-term durability while allowing flexibility for regional standards and site-specific conditions.

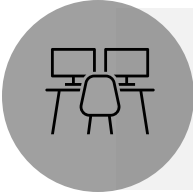

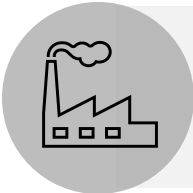

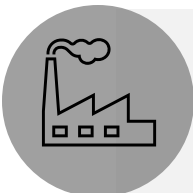

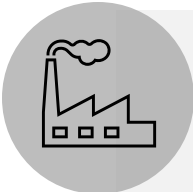

Selection Principles

	Carpet Tile	LVT	Walk-Off	ESD	HRT
 Acoustic Comfort	Excellent sound absorption; ideal for quiet environments Performance Cushion Backing	Moderate to excellent acoustic, 5mm Thickness	Excellent sound absorption; ideal for quiet environments Performance Cushion Backing	Low, via glue-down installation	Moderate acoustic
 Durability (foot traffic)	High; suitable for medium to heavy foot traffic	High; suitable for medium to heavy foot traffic	High; suitable for heavy foot traffic	Extremely High; Supports loads up to 2500 PSI	Extremely High; Supports loads up to 2500 PSI
 Ease of Maintenance	Low – vacuum and spot clean. Individual tiles can be uplifted for replacement.	Low – easy to clean, water resistant and disinfects easily.	Low – easy to clean, water resistant and disinfects easily	Low – easy to clean, water resistant and disinfects easily.	Low – easy to clean, water resistant and disinfects easily.
 Slip Resistance	High – improved with entrance walk-off tiles	High	High	Medium	High
 Comfort Underfoot	High – Soft and ergonomic	Medium	High – Soft and ergonomic	Medium	Medium
 Design flexibility	Excellent (Range of abstracts, fractals, colored patterns available)	Excellent (wood, stone, or textile visuals).	Low (Dark color soil hiding textural patterns)	Low (Subtle organic natural patterns)	Low
 Moisture Resistance	High: Performance Cushion Backing is breathable and installable without moisture testing	High: Glue down prevents any gap between plank and substrate from pooling moisture	High: Performance Cushion Backing is breathable and reduces surface moisture affect into internal floor finishes	High: Glue down prevents any gap between plank and substrate from pooling moisture	High: Glue down prevents any gap between plank and substrate from pooling moisture

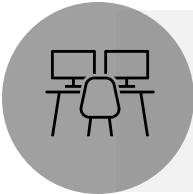

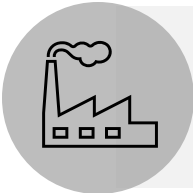

Zonal Requirement

Environment	Zones	Recommended Flooring	Key Attributes
 Office	Work areas, meeting rooms	Carpet Tile	Acoustic comfort, easy replacement
 Office	Pantry, lift lobby	LVT / HVT	Spill & scratch resistance
 Education	Classrooms, library	Carpet Tile	Acoustic comfort, easy replacement
 Education	Corridors, labs, canteen	LVT / HVT	Durable, hygienic, spill & scratch resistance
 Oil Refinery	Offices/control rooms	Carpet Tile / ESD Tile	ESD control, ergonomic
 Oil Refinery	Locker/canteen/corridor	LVT / HVT	Slip resistant, easy clean
 Oil Refinery	Workshop areas	LVT / HVT	Chemical & oil resistant

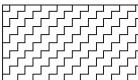

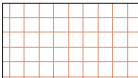

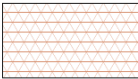

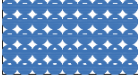

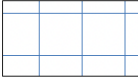

Maintenance Program

Environment	Routine Maintenance	Deep Cleaning Frequency	Special Note
 Office (Carpet Tile)	Daily vacuum, quarterly deep clean	Every 6 months	Spot clean spills immediately.
 Office Hard Surface	Daily dry mop, weekly wet mop	Mop with neutral pH cleaner	Use neutral pH cleaner
 Education (Carpet Tile)	Daily vacuum, semi-annual shampoo	Every 6 months	Spot clean spills immediately.
 Education Hard Surface	Daily mop	Mop with LVT liquid cleaner	Use neutral pH cleaner
 Oil Refinery	Daily degrease & mop	Monthly scrubbing	Use non-slip matting in wet zones.

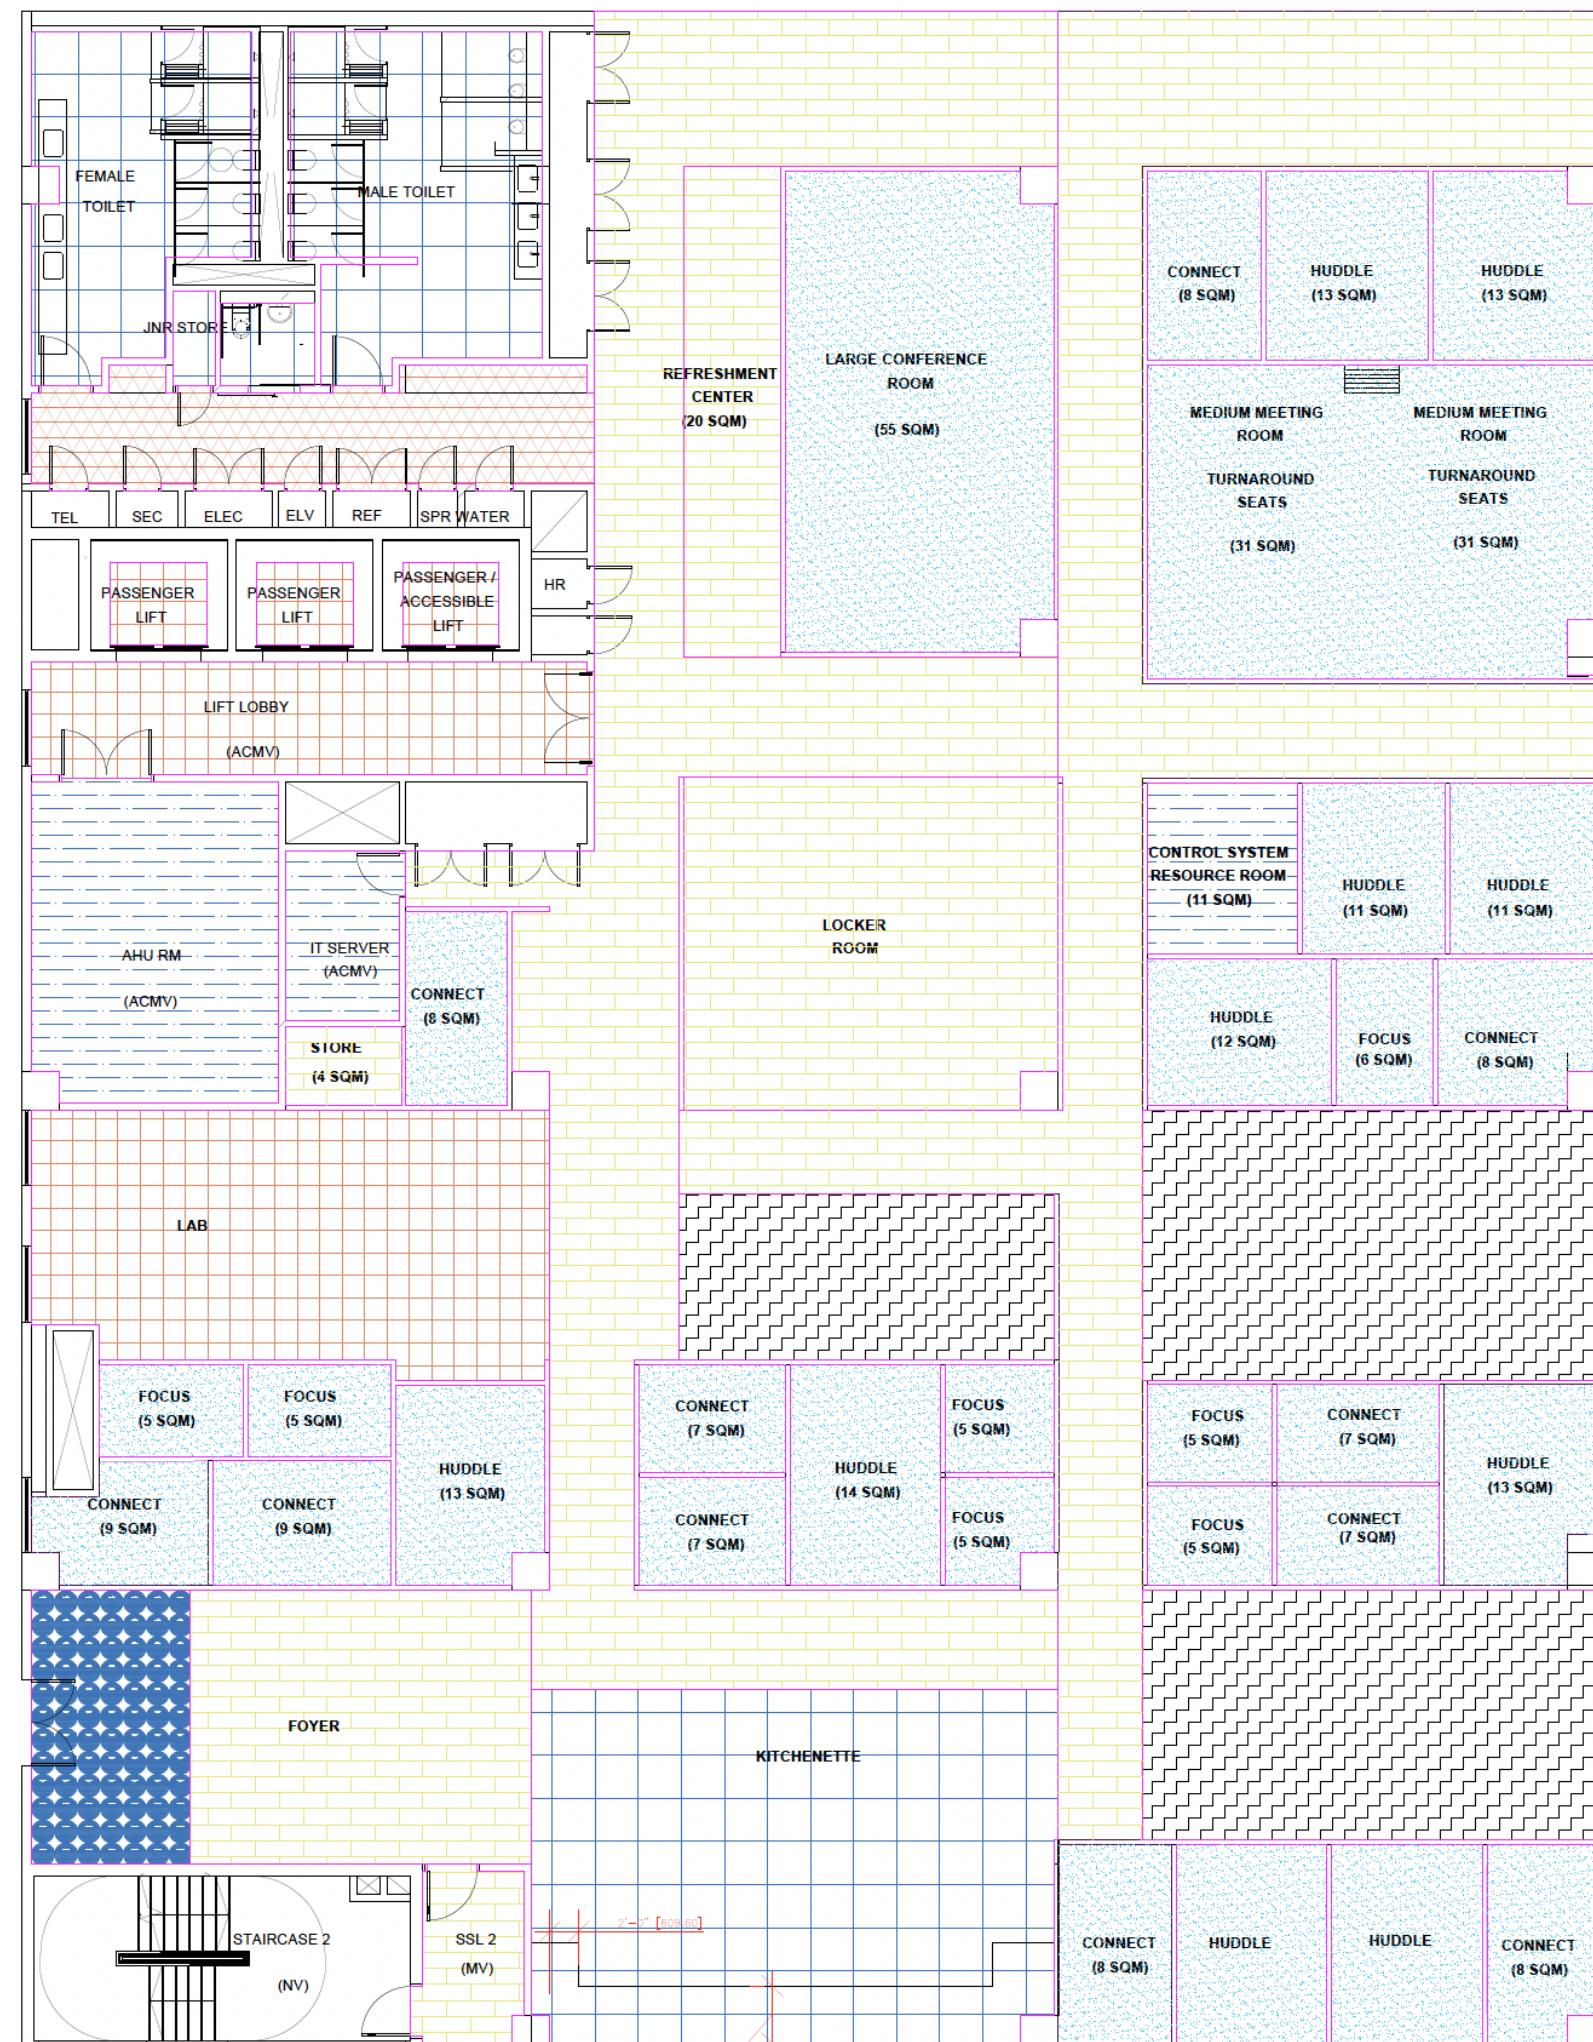

Applicable Flooring Types

Generic multi-purpose corporate floor plan

CODE	LEGEND	DESCRIPTION
C-5		OFFICE GENERAL CARPET TILE
C-6		CARPET TILE (3RD STOREY FOCUS ROOM, CONNECT ROOM, HUDDLE ROOM, MEETING ROOM, CONFERENCE ROOM, TRAINING ROOM)
V-2		VINYL TILE(CORRIDOR,FOYER,LOCKER ROOM,REFRESHMENT CENTER
T-1		HOMOGENEOUS VINYL TILE (LIFT LOBBY, PASSENGER LIFT,LAB
T-9		HOMOGENEOUS VINYL TILE (TOILET CORRIDOR)
ESD		AHU RM,IT SEVER & CONTROL SYSTEM RESOURCE ROOM
WALK-OFF		WALK-OFF (FOYER)
CERAMIC		CERAMIC (KITCHENETTE,MALE & FEMALE TOILET)

External Barrier Matting should be used where practicable

THE SYSTEM

Enabling Control & Consistency

Sustainability & Transparency

Leads to Verifiable, Healthy Choices

Our partnerships and product certifications are transforming the marketplace with well-being in mind. We design hard and soft surface flooring to meet the highest standards of green building certification programs around the world.

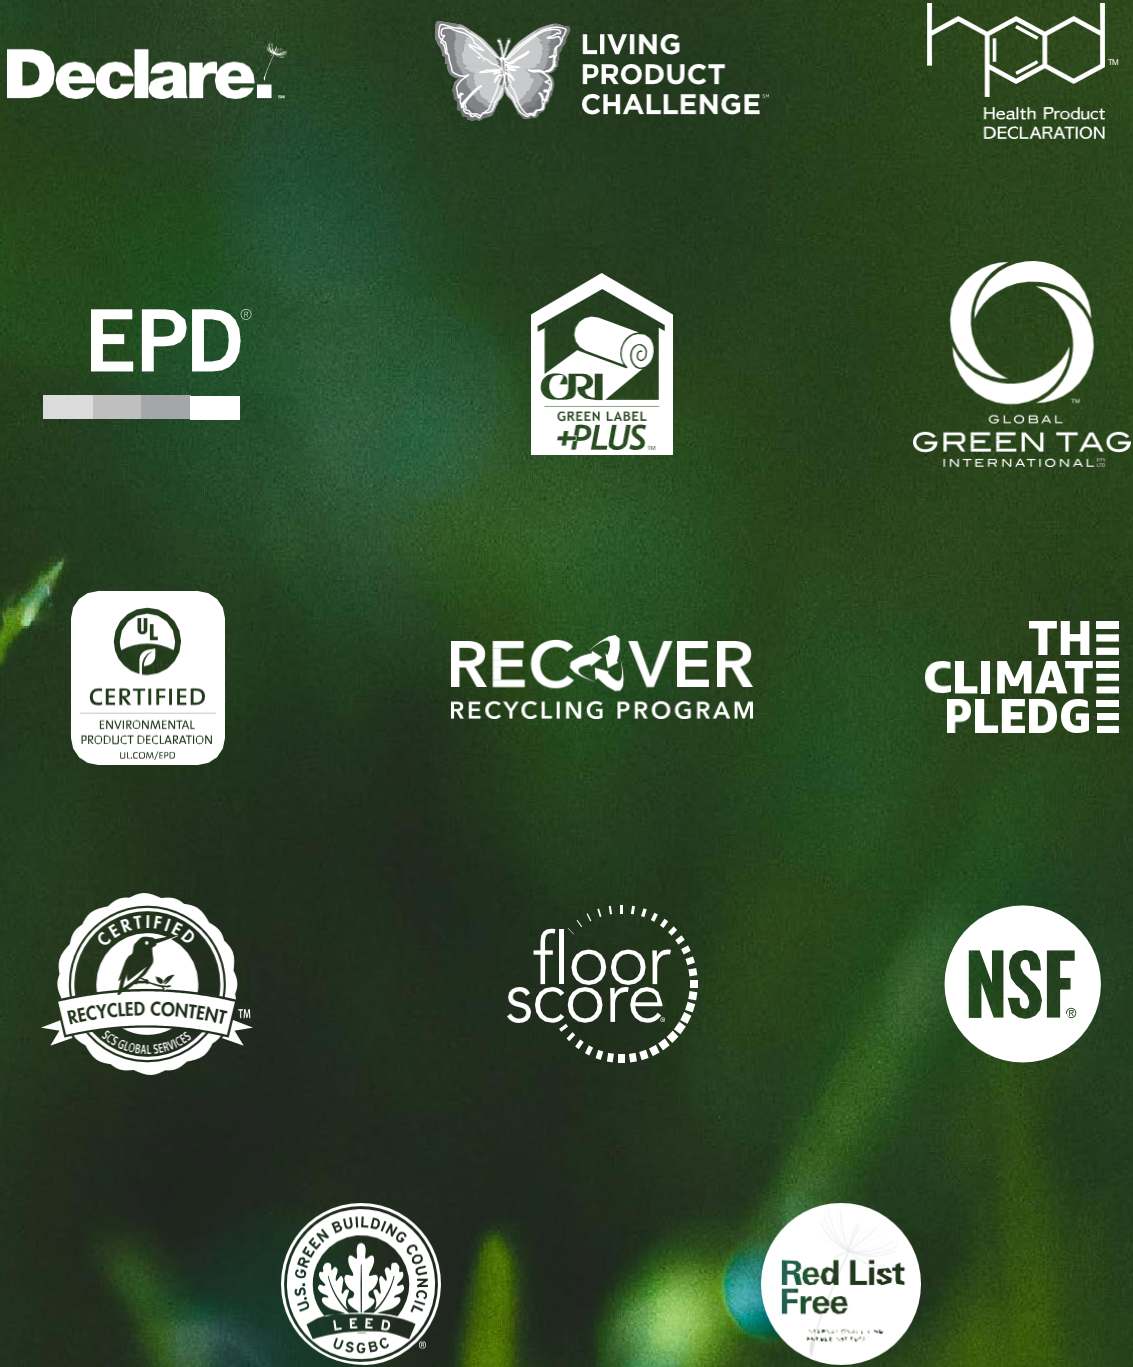

Global Green Building Certification Programs

As a champion of ILFI's stringent product certification programs, Mohawk Group is leading the flooring industry manufacturing the most 'Red List Free' and 'Petal Certified Living' products.

Building Products Sustainability Certifications

Mohawk Group can support your sustainability goals by providing flooring solutions that meet the following certifications

Product Specification Appendix

When specifying to manage the needs outlined above for your facilities, the following represents industry-leading performance solutions approved for
ExxonMobil

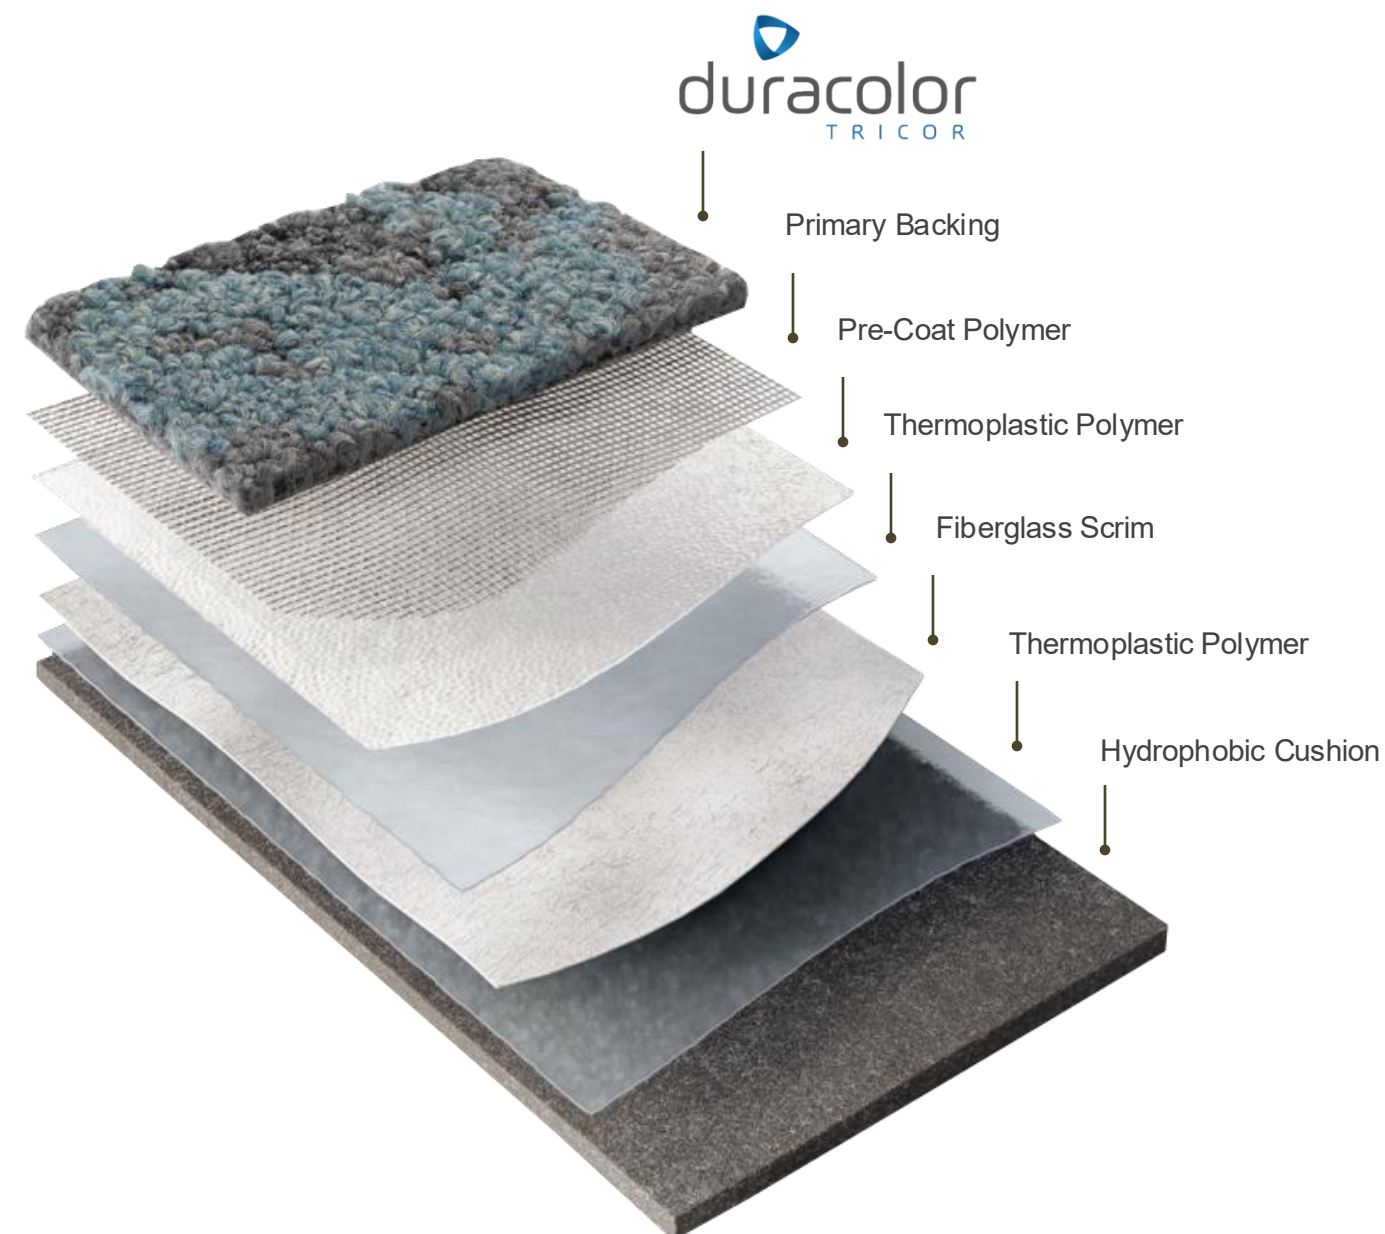

Industry Leading Performance | Backing

EcoFlex™ ONE

Every element in the EcoFlex® ONE construction has a purpose, and combined, they form the industry's leading modular carpet solution. The hydrophobic PET cushion, backing layers, and Duracolor® Tricor fiber are engineered with your end-goals in mind: to optimize your investment, be sustainably made, and provide a better occupant experience.

KEY FEATURES

- Better Acoustics
- Enhanced Comfort & Safety
- Worry-Free Installation
- Simplified Maintenance
- NSF 140 Platinum
- Carbon Neutral +5%
- Limited Lifetime Warranty

Industry Leading Performance | Fiber

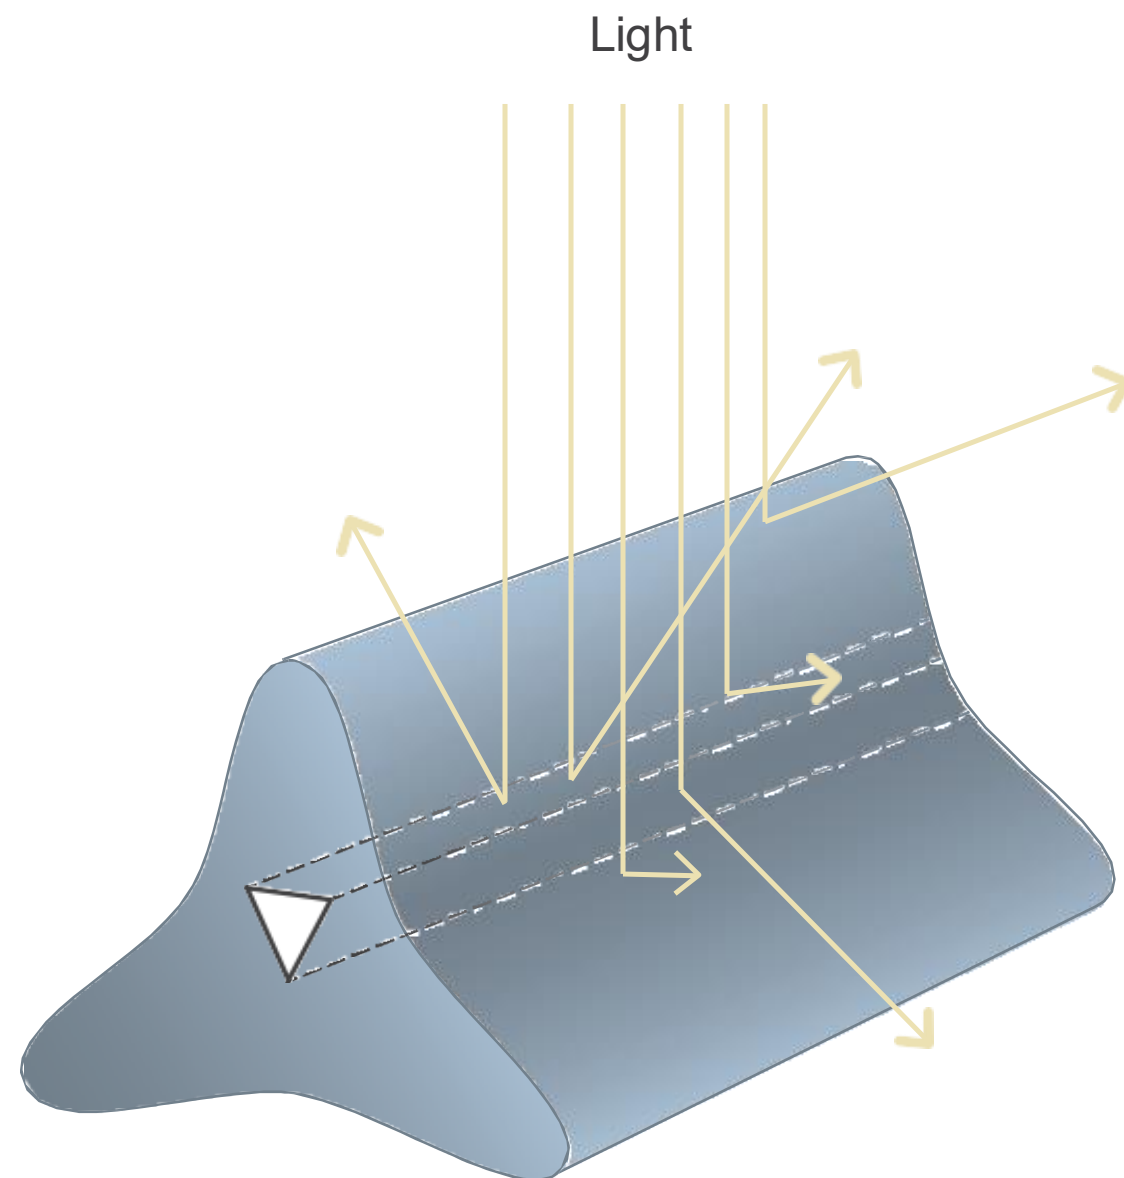

Duracolor fiber has set the standard of high-performance commercial carpet since 1992. With enhanced soil hiding and removal capabilities, Duracolor Tricolor builds upon a fiber already trusted to perform in demanding environments. When compared head-to-head to competitive nylon products, Duracolor Tricolor delivers trusted performance.

FOREVER STAIN FREE

- The high-performance shape of the modified delta improves resilience and reduces surface wear of carpet
- Duracolor® Tricolor Fiber has a negative charge that repels 99% of negatively charged, common staining substances
- Single Triangular Hole provides the best soil hiding capability and controlled light diffusion for clearer, brighter colors
- 96% of all common stains removed with just water
- Passes AATCC Test Method 175 combined with pre-abrasion meeting GSA requirements for stain resistance

FOREVER BEAUTIFUL

- Unsurpassed colorfastness to light and atmospheric contaminants so colors won't fade
- Unmatched design flexibility without compromising color retention or stain resistance

The Power of the Triangle: The shape and placement of the fiber's central hollow core delivers optimal light refraction while preserving color clarity.

Industry Leading Performance | LVT Finish

M-Force™ Ultra

COMPLETE PERFORMANCE SYSTEM FOR LVT

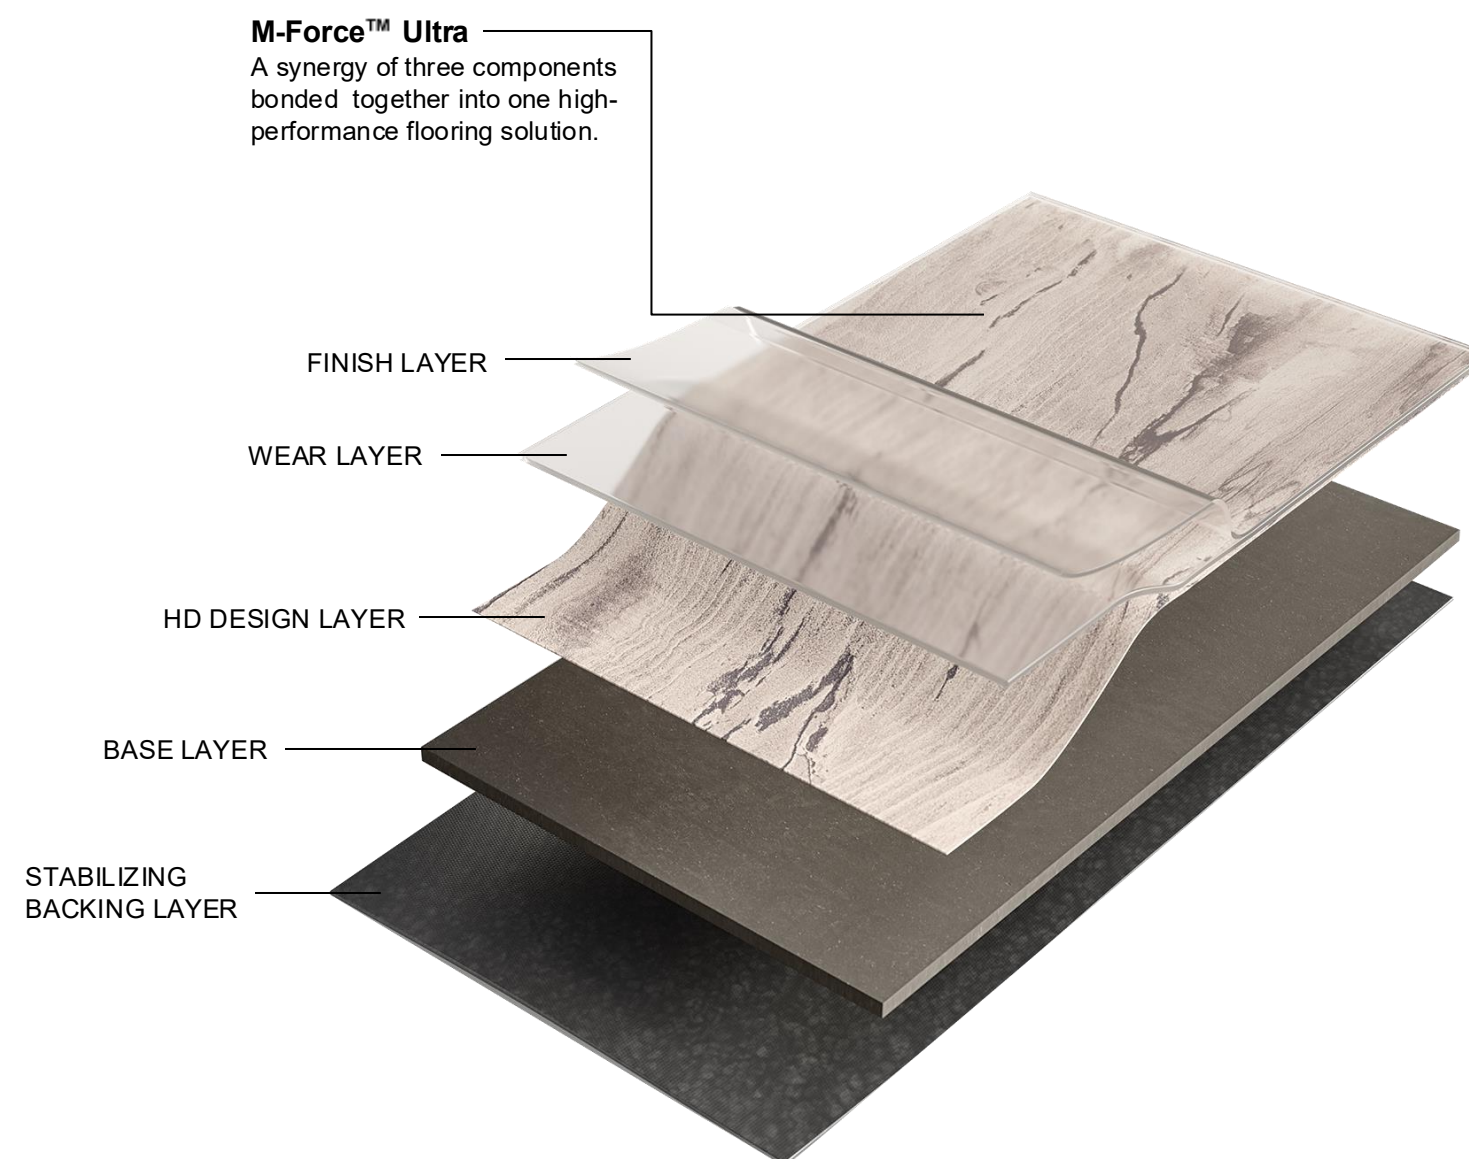

M-Force® Ultra makes your floor look better longer, with superior protection against scratches, stains, dents, and wear, all while providing a crisp, clear visual and easy maintenance.

PERFORMANCE FOR LIFE

- M-Force® provides exceptional scratch, puncture and stain resistance for lasting beauty.
- Easy to clean and maintain, M-Force® provides greater stain and soil protection.

WARRANTY

- M-Force® Ultra flooring carries a limited 20-year commercial warranty.

Walk-Off Modular Carpet Tile

ENTRY PROBLEM & SOLUTION

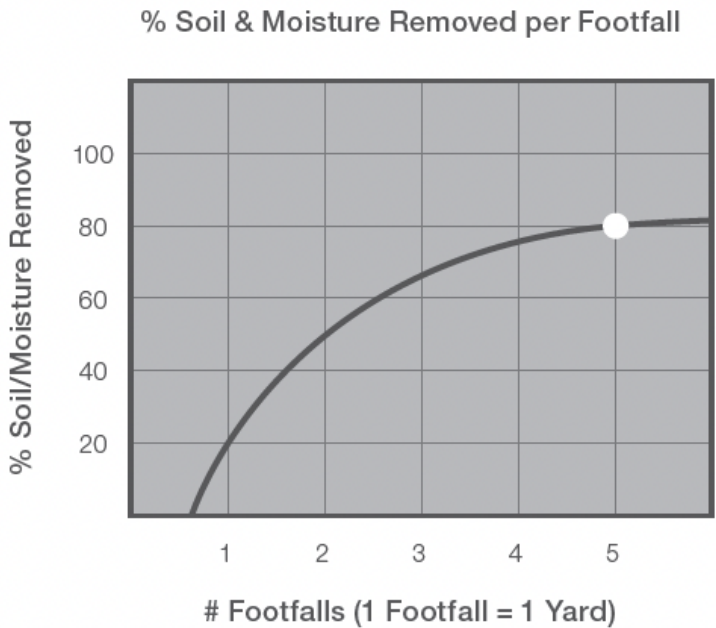

Walked in soil and moisture are the main causes of premature wear and eventual replacement of floor covering. Effective placement of walk-off tiles according to the Carpet & Rug Institute (CRI). This means lowered maintenance costs and extended life for all floor coverings beyond the entry. CRI recommends five footfalls of walk-off tile in entrances to achieve the highest level of performance.

VERSATILE DESIGN

Tuff Stride is designed specifically to protect facilities against excess dirt and moisture, all while providing a safe, non-slip surface in high moisture areas. The styles can be used individually or as an extension of our heavy-duty Tuff Stuff II walk-off tiles for maximum protection and a stylish transition to your flooring.

KEY FEATURES

- Tuff Stride’s engineering provides a Class I fire rating—a key aspect when specifying carpet for retail and general public entryways.
- The use of heavy ‘scraper’ yarns provides for ideal soil removal and collection. Each square yard can hold up to 3.64 lbs of sand.
- Tuff Stride’s unique construction removes and absorbs up to 5.4 lbs of moisture per square yard.
- Tuff Stride walk-off tiles can be easily cleaned by vacuuming or extracting. You can also remove individual tiles for cleaning or to replace damaged areas.

Homogeneous Resilient Tile

Bring the look of terrazzo to high-performance spaces with Creative Terrain II. Built to endure demanding environments, this 3 mm, 36" × 36" homogeneous resilient tile supports loads up to 2,500 psi. Micro-squared edges, flash coving, and heat-welded seams ensure a continuous surface that enhances cleanability and visual uniformity.

Seamless Hygiene

Micro-squared edges, flash coving, and heat-weld options create watertight, easy-to-clean surfaces.

25-Year Commercial Warranty

Ensuring long-term value and Lifecycle cost savings

Restorable Durability

100% Homogeneous construction lets scratches and scuffs be buffed away for a like-new look.

Electrostatic Dissipative (ESD) Tile

Reduce risk with Static Shift. This Electrostatic Discharge (ESD) flooring is a simple solution that prevents the buildup of static electricity. By discharging static safely to ground, Static Shift helps protect against disruptions to highly sensitive equipment and spaces containing combustible materials.

Conductive Force Tile

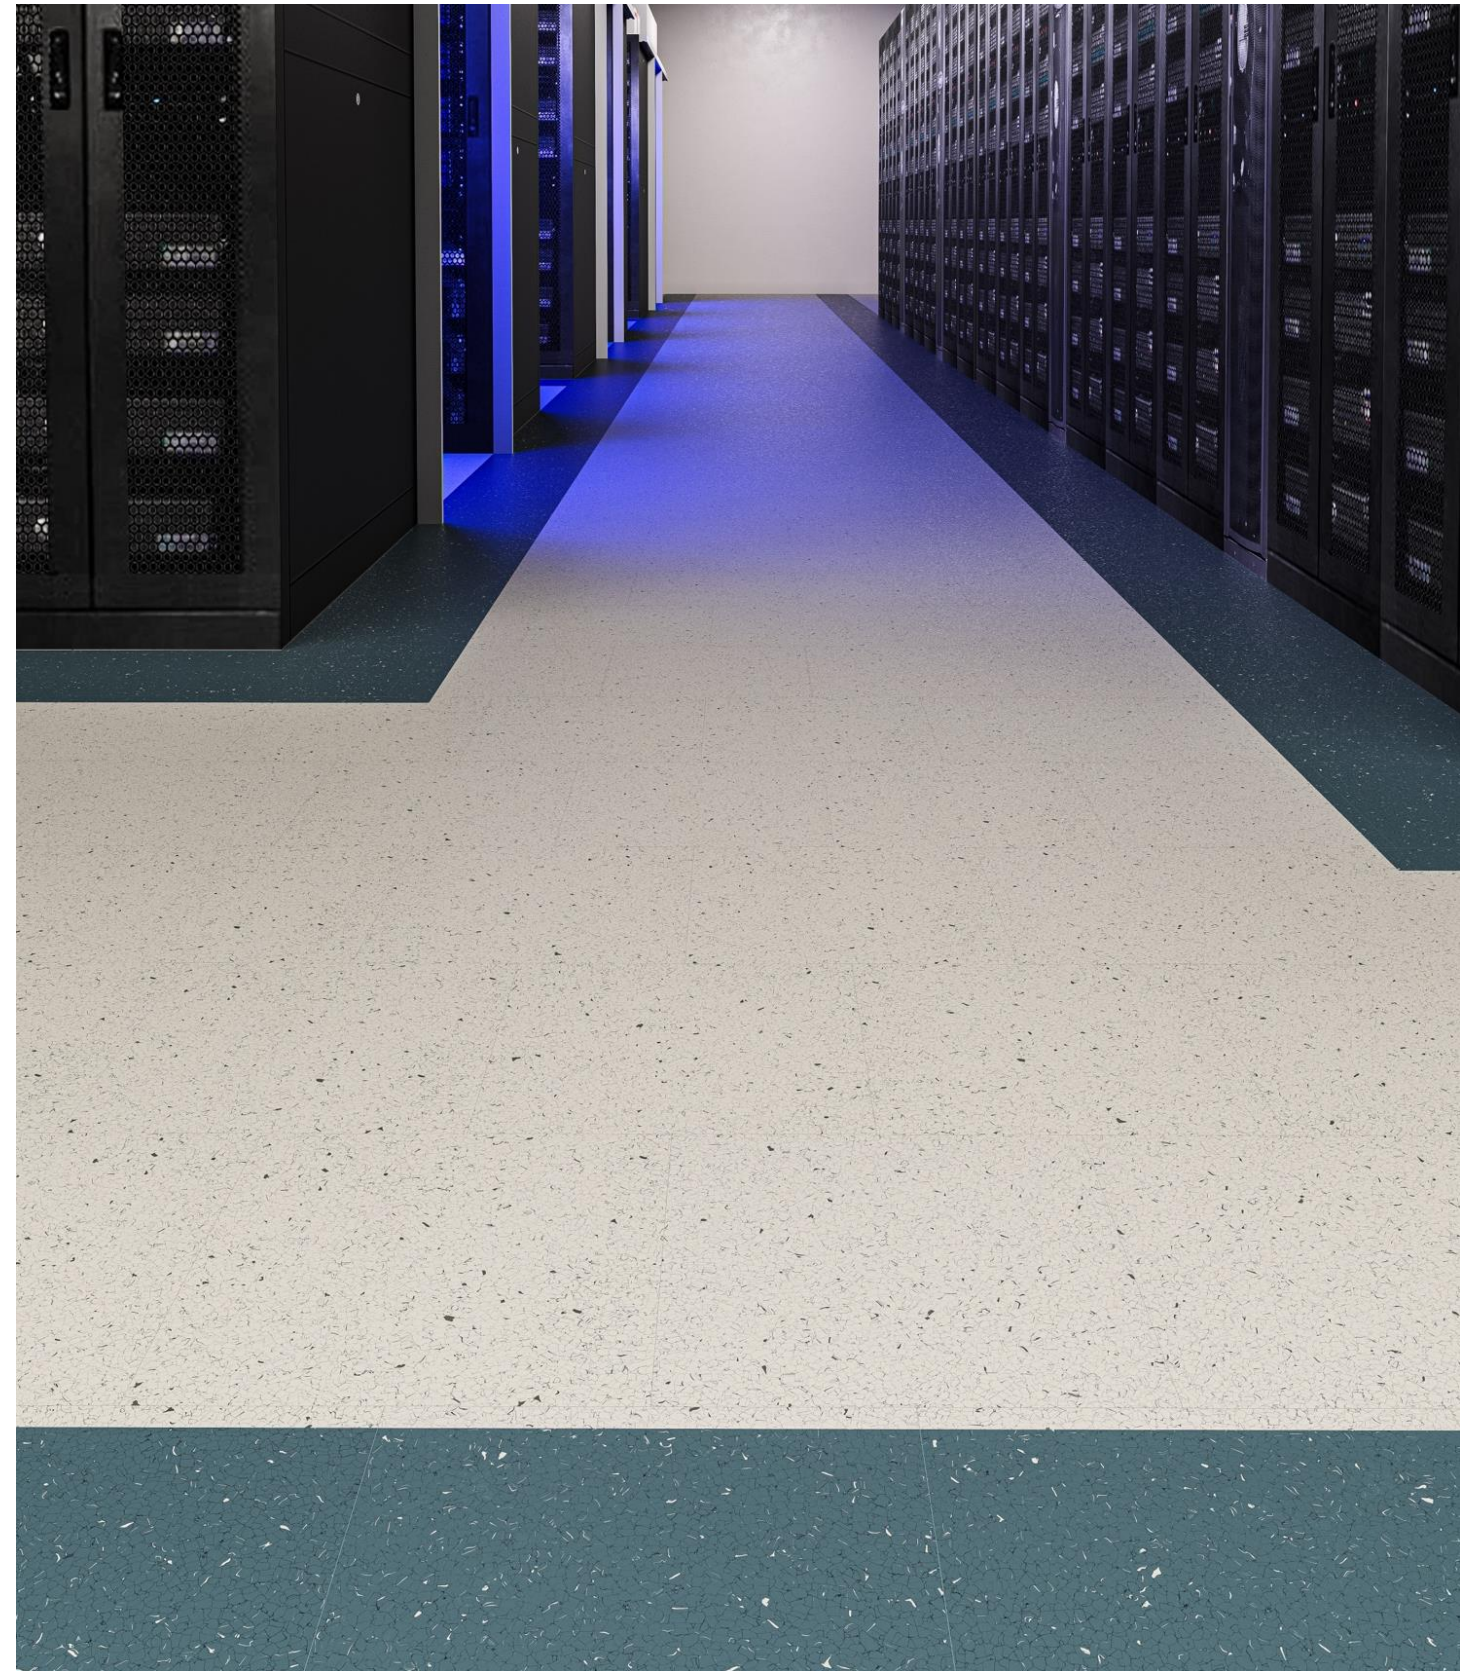

- 25,000 to 1,000,000 ohms resistance
- Fastest static decay. Up to 20 times faster than regular static dissipative tiles
- For use with highly sensitive equipment and critical applications

Dissipative Force Tile

- 1,000,000 to 1,000,000,000 ohms resistance
- All high voltage applications
- Combustible material applications across multiple industries

Key Attributes

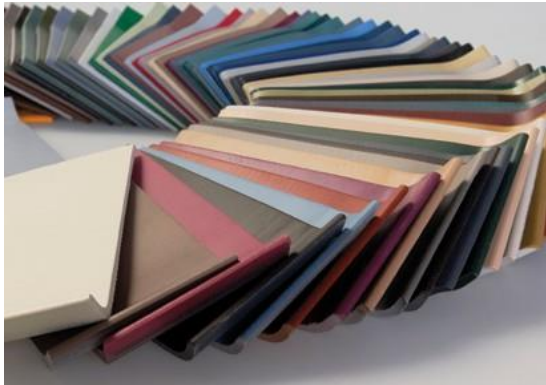

- Zero Detectable VOC's
- 2,500 PSI load rating - suitable for heavy loads including forklift traffic
- Limited lifetime warranty for electrical performance, limited 25-year warranty for wear

Wall Base

Elemental Edges is a complete portfolio of wall-base accessories for all your flooring installation and finishing needs. The program is offered in 14 standard and 56 non-standard colors that coordinate perfectly with our full suite of soft and hard surface products.

Cove Wall Base

Seamlessly coordinate your wall base and Mohawk Group floor covering from our variety of QuickShip wall base offerings.

Stocked

- Rubber
- Vinyl
- 4" or 6" height
- 4' lengths or 96' & 120' rolls
- 1/8" gauge
- 14 colors

Made-To-Order

- .080" gauge (4" x 48" Cove vinyl)
- 56 colors
- MOQ Required, see specifications

Architectural Wall Base

Complement your space with the rich detail of Elemental Edges Architectural Wall Base, offered in a variety of designs, sizes and running line colors. Superior performance and durability allowing your project finishes to remain remarkable.

Available In

- 1/4" Rubber
- 8 design profiles
- 14 standard colors
- 56 additional colors
- 8' lengths

Straight Wall Base

Designed with durability in mind, our Straight Wall Base offers a range of heights and colors to suit your needs, ensuring a perfect blend of utility and aesthetics. We deliver on essentials, free from unnecessary extras.

Available In

- Rubber
- Vinyl
- 4" or 6" in height
- 4' lengths or 96' & 120' rolls
- 1/8" gauge
- 70 made-to-order colors

Adhesives

Mohawk M700 Plus is a recommended pressure-sensitive, high-strength, high-tack adhesive for installing multiple types of dimensionally stable floor coverings such as vinyl tiles & plank, non-PVC backed carpet tiles over porous and non-porous substrates.

Mohawk M700 Plus offers extended open time, fast dry time and ease of application. This unique adhesive has outstanding water resistance and tenacious bond strength for demanding installations such as hospitals, schools, nursing homes, hospitality, and food preparation centers. The low odor is ideal for occupied buildings

Features and Benefits:

- 99% RH Moisture Limits on selected backings
- Very low odor solvent free, “zero” calculated VOC
- Extremely tenacious tack, high shear & peel strength
- Non-staining formula
- Antimicrobial Protection
- Immediate Occupancy
