

Resilient Sheet Weld Rods

Mohawk Group's Solid Color Heat Weld Rods are recommended for our Healthy Environments Heterogenous Sheet Collections. The weld rods are used for seaming, wayfinding or accenting commercial resilient sheet. The recommended weld rod chart shows suggested color coordinates, although final weld rod color selection is determined by specifier or end-user based on the flooring design.

SUGGESTED WELD ROD COORDINATES

	RESILIENT SHEET		WELD ROD			
	COLOR #	COLOR NAME	STYLE #	COLOR #	COLOR NAME	COLOR VISUAL
