

Smart City™

Urban Model Urban Mobility

Mohawk Group believes design is a journey, and our next stop is Smart City—a Living Product Certified carpet plank system inspired by some of the world’s most connected places. Urban Model offers an intricate base texture presented in three distinctive hues and contrast levels, while Urban Mobility layers a metropolitan subway line pattern in six sophisticated color options. Experience Smart City, and see how we are nurturing the built environment with new directions for sustainable and intelligent design. Mohawk Group collaborated with Gensler, serving as product design consultant, for the Smart City collection.

# Smart City

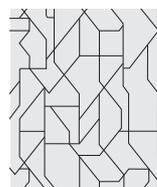

Explore Smart City, where transit systems provide human mobility and connectivity. The linear graphics of Urban Mobility are inspired by actual subway lines in Berlin, Istanbul, London, New York, Paris and Shanghai, while the organic base pattern of Urban Model reflects the texture and rhythm of a metropolitan mapscape.

Since Urban Mobility colorways are unique to different city transit systems, the design of each will vary. Please consider ordering several samples of your desired color to get an accurate depiction of its true design.

Today, the built environment generates nearly 40% of annual greenhouse gas emissions and 50% of the world's energy usage. As Mohawk Group continues its journey to Believe in Better, we have an urgent responsibility to lead our industry in meeting and exceeding net zero carbon standards.

Guided by the principles of the Living Product Challenge, our designers and engineers seek to develop products that are:

- Healthy and free of toxins
- Socially responsible and respectful of workers' rights
- Net positive to benefit both people and the environment

## Living Product Challenge

Produced at our Living Site, Smart City is carbon neutral, and achieves Living Product Certification from the International Living Future Institute due to its net positive impact on the following sustainable imperatives:

Installation Instructions:

Mohawk Group warrants its adhesives for the life of the original installation only when a Mohawk Group style (product) is installed. Mohawk's floor preparation procedures must be followed to ensure that the substrate has been prepared properly. Failure to use Mohawk Group adhesives or to follow Mohawk's floor preparation procedures will void all lifetime adhesive warranties. Please contact your local Sales Representative for installation guidelines.

**These patterns contain inherent characteristics which may result in pattern run off and/or pattern appearance variations at the seams or tile edges (darker or lighter pattern lines). These characteristics are inherent in the patterns and are not manufacturing defects. Consideration to these characteristics should be given when selecting an installation method.**

Chair pads are recommended under office chairs with roller casters to preserve appearance retention, act as a deterrent toward delamination and to prevent premature or accelerated wear. Walk-off tiles from the Tuff Stuff II Collection are recommended at entryways to reduce soiling.
