

High-Performance Flooring for Airports

Smooth Landings Start with Mohawk Group

We're Redefining
Expectations in
High-Performance
Flooring for
Airports.

Engineered with meticulous attention to the demands of busy terminals, our products ensure unmatched durability and style. Experience simplified procurement, easy installation, and sustainable, long-lasting performance from our high-performance flooring solutions tailored specifically for airport environments. Whether you prioritize reliability, aesthetic appeal, or seamless functionality, our flooring transforms airport spaces into havens of assurance and efficiency.

Your Partner in Visionary Terminals

Why
Mohawk Group
is Your Trusted
Co-pilot in
Designing
Future-Ready
Airports.

Heritage of Design Excellence & Innovation

Pioneering the future of flooring is integral to our DNA. As the commercial division of Mohawk Industries, our heritage of innovation spans more than 130 years. So you can trust that our products are rooted in experience, wisdom, and craftsmanship proven by longevity in the market.

Comprehensive Product Offering

Mohawk Group offers a complete portfolio of flooring products and services for airport environments, on time and in budget. We're here to help you at every step of the way, with deep expertise in the challenges faced by high traffic areas and the solutions you need to meet your goals.

Proudly Made in the USA

We offer a broad range of soft surface and hard surface flooring products that are made in the USA. By choosing domestically manufactured flooring, you can reduce your lead time and receive industry-leading service.

Environmental Leadership

At Mohawk Group, our commitment to our sustainability extends beyond the status quo. That's why we believe in a holistic approach to being better for people, planet, and performance. Every day, our approach fuels our drive to improve. It guides how we make choices, how we invest in the future, and how we identify what holds the most significance – all in pursuit of creating lasting value for generations to come.

High-Performing Modular Carpet

Our modular offering is the perfect solution for high-traffic airport areas, designed for easy installation and replacement to keep your airport looking its best. These tiles provide exceptional comfort underfoot while allowing for easy roller mobility for luggage and wheelchairs. Additionally, our carpet enhances acoustics, contributing to a calming and serene environment, and ensuring a pleasant experience for all passengers. Choose from a variety of styles and colors to create a visually appealing and functional space that meets the demands of busy terminals.

Premium Hard Surface Collections

Discover the perfect balance of aesthetics and durability with our extensive range of luxury vinyl tile (LVT) and homogeneous vinyl tile (HVT), designed specifically for high-traffic airport environments. Our hard surface options provide a versatile selection of visual styles and dimensions, with textures inspired by rustic woods, elegant stones, and contemporary Terrazzo. Whether you prefer a modern or classic look, our collections offer the ideal solution to enhance the beauty and functionality of your airport spaces.

Broadloom and Rugs

For areas where a seamless look or added comfort is desired, our broadloom carpets and rugs provide a luxurious feel.

Resilient Sheet

Ideal for areas requiring a more continuous flooring solution, our resilient sheets offer superior durability and easy maintenance.

Flooring Accessories

Complete your flooring design with our range of accessories, including wall base and transitions ensuring a cohesive and safe environment.

Creative Terrain

Creative Terrain Mohawk Group's award-winning homogeneous vinyl tile (HVT), is exceptionally tough, long lasting and beautiful—a world-class floor that will perform remarkably well in the most extreme conditions. When installed, Creative Terrain offers a nearly seamless terrazzo-like appearance for a timeless, refined design solution.

PERFORMANCE

- Superior durability in the most demanding environments
- High traffic areas in airports, schools, offices, and hospitals
- No lamination or wear layer—100% homogenous construction from top to bottom allows this product to be buffed—making it look just like new
- Excellent dimensional stability
- 2,500 PSI—Highest load rating—can withstand weight of golf carts, medical beds, and forklift trucks
- Micro-squaring technology means tighter joints, reduces “dirty mop water seam” between tiles
- Heat weld and flash cove for sanitary seams

SUSTAINABLE

- No detectable VOC emissions

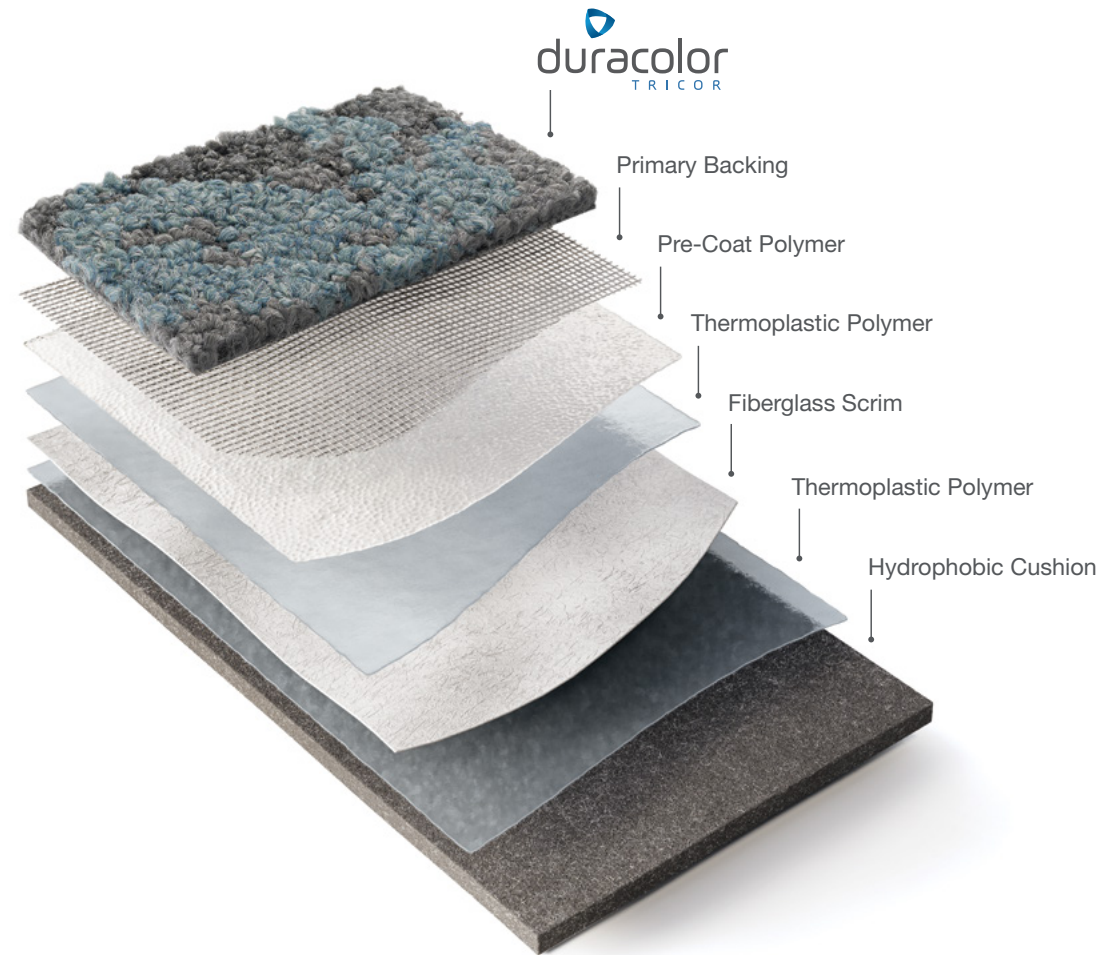

COLOR MATCH

- Color coordinated weld rods can be used for utility or decoratively

MADE IN THE USA

- Made in the USA, offering industry-leading serviceability and supporting our local economies

EcoFlex™ ONE

ALL-IN-ONE FLOORING SOLUTION

Every element in the EcoFlex ONE construction has purpose, and combined they form the industry's leading modular carpet solution. The hydrophobic PET cushion, backing layers, and Duracolor Tricolor fiber are engineered with your end-goals in mind: to optimize your investment, be sustainably made, and provide a better occupant experience.

KEY FEATURES

- Better Acoustics
- Enhanced Comfort & Safety
- Worry-Free Installation
- Simplified Maintenance
- NSF 140 Platinum
- Carbon Neutral +5%
- Limited Lifetime Warranty

EcoFlex™ ONE is a unified solution to the wide range of needs in your spaces. This advanced backing system improves every aspect of comfort and acoustics while eliminating moisture testing—all with a lighter environmental footprint that is carbon neutral plus an additional 5% offset. Tested and proven, EcoFlex™ ONE is the holistic solution for human-centric environments.

Duracolor® Tricolor solution dyed nylon delivers unsurpassed stain resistance, colorfastness, durability, color clarity, and enhanced soil performance.

Soil Control

Optimal soil hiding, soil removal, and color clarity, due to its unique shape and triangular hollow core.

Stain Resistance

Utilizes a patented process for permanent built-in stain resistance that won't wash or wear off.

Performance

Unsurpassed colorfastness to light and atmospheric contaminants, so colors won't fade.

Durability

Unique fiber shape and core resist crushing, for carpet with enhanced durability and a longer life cycle.

Sustainability

Declare Red List Free and made with a minimum of 70% recycled content.

M-Force™ Ultra

COMPLETE PERFORMANCE SYSTEM FOR LVT

M-Force Ultra is a combination of the finish layer, wear layer and design layer. We develop each layer individually for optimal performance, and then we bond the layers in a proprietary process that makes their performance exponentially greater together. As a result, your floor looks better longer, with superior protection against scratches, stains, dents and wear, all while providing a crisp, clear visual and easy maintenance.

PERFORMANCE FOR LIFE

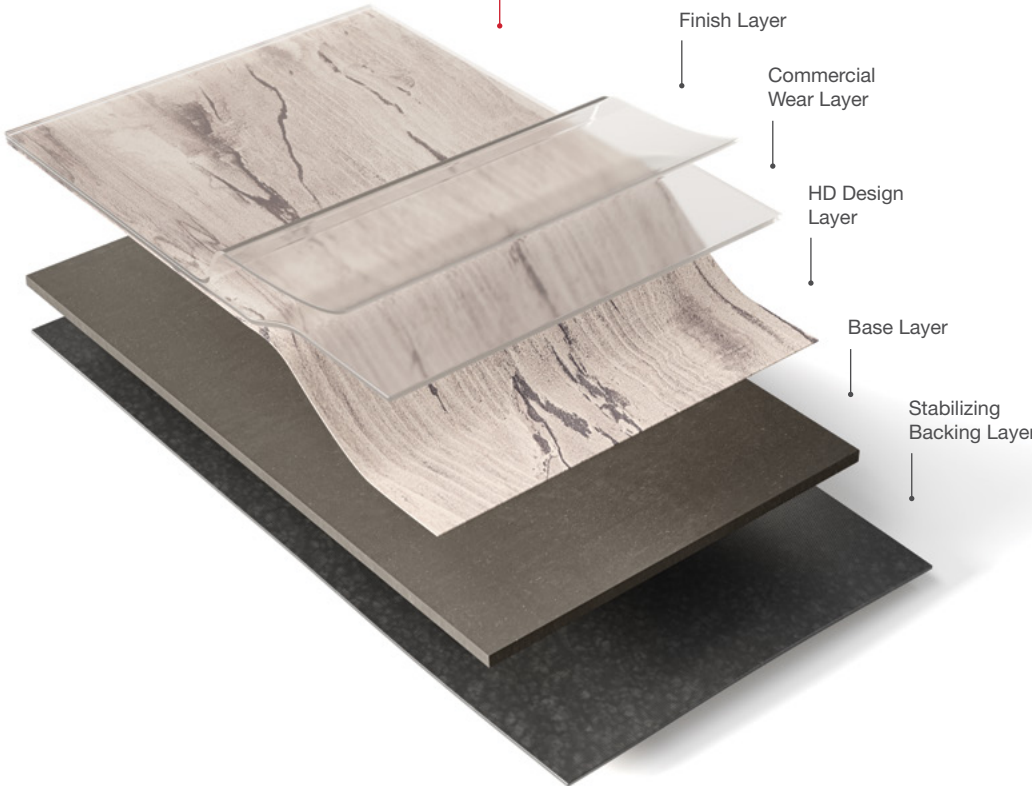

- M-Force™ provides exceptional scratch, puncture and stain resistance for lasting beauty.
- Easy to clean and maintain, M-Force™ provides greater stain and soil protection.

WARRANTY

- M-Force Ultra flooring carries a limited 20-year commercial warranty.

M-Force™ Ultra

A synergy of three components bonded together into one high-performance flooring solution.

Gate-to-Gate Excellence

No Need for Transition Strips

Whether you're using our modular carpet with an EcoFlex™ ONE or EcoFlex Matrix backing system, we provide a wide range of LVT styles with thicknesses ranging from 2.5 mm to 5 mm, eliminating the need for transition strips and reducing time and costs.

Coordination Across Flooring Products

One type of flooring does not work for all spaces. So we offer a variety of carpet types, hard surface flooring, and accessories, with palettes and patterns that work together beautifully—helping you create coordinated environments with the right type of floor in each space.

No Need to Remove Existing Adhesive

EcoFlex ONE and EcoFlex AIR are state-of-the-art backing systems that allow modular carpet to be installed directly over preexisting adhesive residue.² This can save significant time and costs on subfloor preparation, without compromising the long-term integrity of your installation.

Seamless Connectivity

Simplified Procurement Options

We participate in all the major cooperative purchasing organizations and various state contracts so you're able to acquire our products using a procurement method that has already been competitively solicited and awarded.

Products Ship within 10 Business Days

Offering more colors and styles than ever before, our Quickship program gives you instant access to hundreds of products available to ship within 10 business days. For more immediate needs, explore our Ready To Ship program.

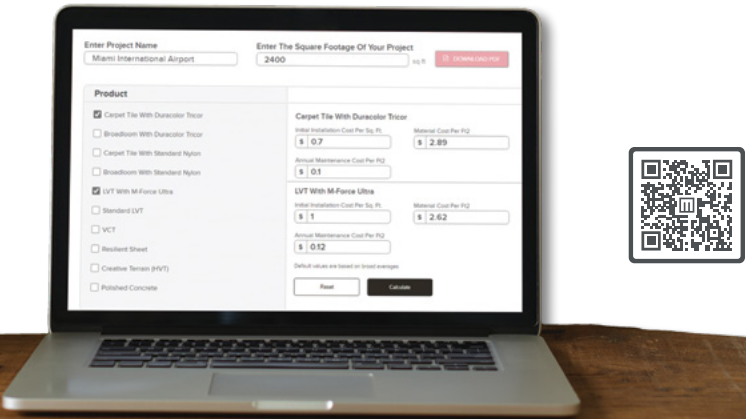

Enduring Excellence with Long-Lasting, Low- Maintenance Flooring for High-Traffic Airports

Designed to withstand the rigors of passenger flow and heavy foot traffic, our products ensure your airport remains runway ready. Our engineered carpets and resilient flooring offer maximum durability for concourse areas, gate zones, and baggage claims, providing greater ROI and easy maintenance. With technologies like Duracolor® Tricor and M-Force™, your terminal spaces will maintain their beauty and functionality, ensuring a seamless experience for every traveler.

Designed to Reduce Cost of Ownership

We have engineered our carpets and resilient flooring for maximum durability under heavy traffic, providing you with a greater ROI. Our floors are also easy to keep clean, with technologies that protect against stains and soiling to help keep your space looking beautiful.

Lifecycle Cost Estimator

Meet Personal Studio™ (p.s.), our innovative design personalization tool that lets you customize our running line products for your unique project designs.

Visualize In A Room

Customize colors, visualize designs in room scenes, and order samples effortlessly from our soft surface product range.

Photorealistic Simulations

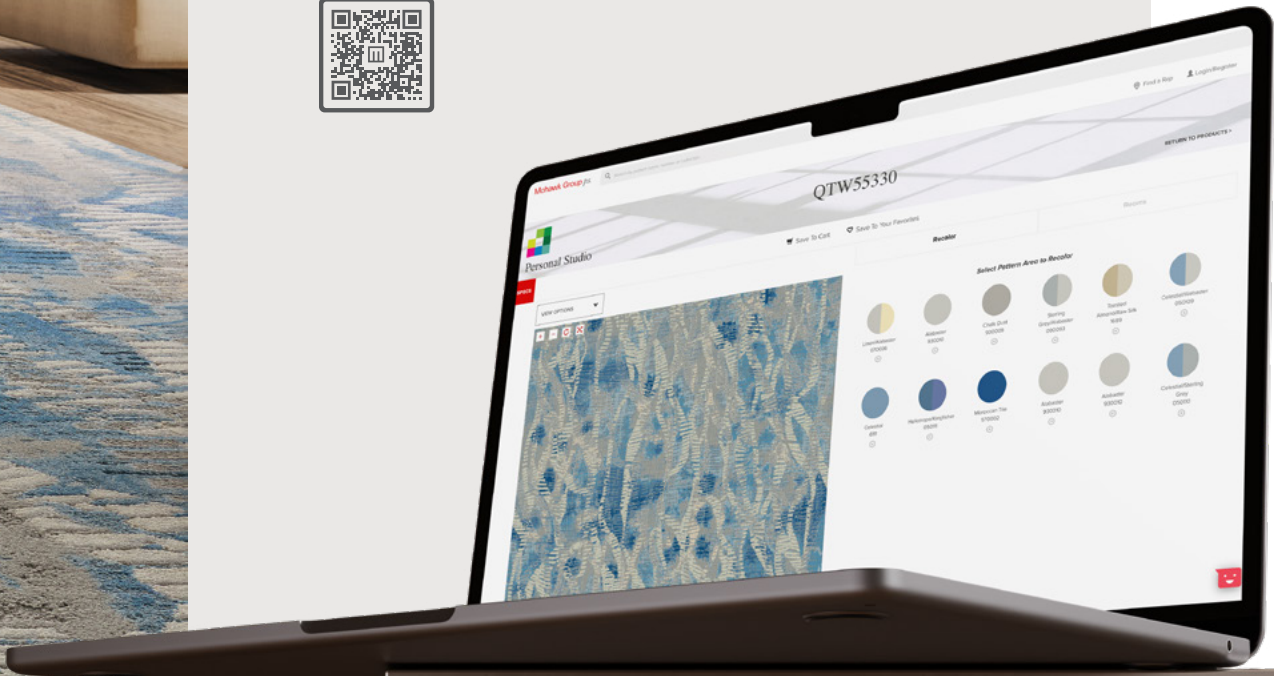

Personal Studio offers realistic simulations of textures for accurate design representation.

Find The Perfect Color

Quickly explore various colorways and patterns to find the ideal match for your project.

Multiple Projects

Save personalized products for each project and switch between them easily in the user-friendly interface.
