

Commercial Nylon Broadloom Carpet on Unibond Plus ComfortGuard

by Mohawk Group

HPD UNIQUE IDENTIFIER: 1327027200

HPD UNIQUE PRODUCT ID: Not provided.

CLASSIFICATION: 09 68 16 Sheet Carpeting

PRODUCT TYPE: Sheet Carpet Flooring

PRODUCT DESCRIPTION: ComfortGuard is a revolutionary moisture barrier that enhances Mohawk's Unibond Plus backing system with an integrated layer that prevents moisture from getting beneath the carpet backing. This advanced moisture barrier withstands 2,000 impacts with no moisture penetration and passes the British Spill Test. Unibond Plus ComfortGuard is the ideal solution for areas requiring high performance flooring prone to frequent spills and areas with existing high moisture subfloor concerns. When installed using Mohawk Group's NuBroadlok® VRT broadloom adhesive and NuBroadlok Moisture Proof Latex Seam Sealer, Unibond Plus ComfortGuard forms a fortified barrier to safeguard from spills, while allowing moisture vapor to pass from the sub-floor and evaporate.

INVENTORY AND SCREENING NOTES:

*Form-Specific Hazard: This substance's GreenScreen Benchmark or List Translator score and the applicable hazards are related to particulate inhalation, which is expected to occur only during manufacture, installation, maintenance, or demolition, due to activities such as sawing, sanding, grinding, or intensive cleaning. For this reason, this score is intentionally omitted from the "Contents highest concern" line above. See HPDC's Special Conditions policy for more information.

This section lists contents in a product based on specific threshold(s) and reports detailed health information including hazards. This HPD uses the inventory method indicated above, which is one of three possible methods:

- Basic Inventory method with Product-level threshold.
- Nested Material Inventory method with Product-level threshold
- Nested Material Inventory method with individual Material-level thresholds

Definitions and requirements for the three inventory methods and requirements for each data field can be found in the HPD Open Standard version 3.0, available on the HPDC website at: www.hpd-collaborative.org/hpd-3-0-standard

The Health Product Declaration (HPD) Open Standard provides for the disclosure of product contents and potential associated human and environmental health hazards. Hazard associations are based on the HPD Priority Hazard Lists, the GreenScreen List Translator™, and when available, full GreenScreen® assessments. The HPD Open Standard is not:

- a method for the assessment of exposure or risk associated with product handling or use,*
- a method for assessing potential health impacts of: (i) substances used or created during the manufacturing process or (ii) substances created after the product is delivered for end use.*

Information about life cycle, exposure and/or risk assessments performed on the product may be reported by the manufacturer in appropriate Notes sections, and/or, where applicable, in the Certifications section.

The HPD Open Standard was created and is supported by the Health Product Declaration Collaborative (the HPD Collaborative), a customer-led organization composed of stakeholders throughout the building industry that is committed to the continuous improvement of building products through transparency, openness, and innovation throughout the product supply chain.

The product manufacturer and any applicable independent verifier are solely responsible for the accuracy of statements and claims made in this HPD and for compliance with the HPD standard noted.
