

Creative Terrain II

Built for unmatched performance, Creative Terrain II brings new design possibilities to demanding environments in healthcare, education, the workplace, and beyond.

Evoking sophisticated terrazzo, this homogeneous resilient tile creates a timeless floor. The visual offers striking realism with chips of glass-like translucence and subtle metallics. The 36" x 36" tiles are available in 30 chic colorways, and waterjet cutting enables elaborate designs.

This flooring is also exceptionally tough, delivering long-term durability in extreme conditions. Elevate even the most challenging spaces with the refined creativity of Creative Terrain II.

Creative Terrain II Applications

✓ Patient & Exam Rooms	✓ Elevators
✓ ICU/OR	✓ Physical Therapy
✓ Loading Docks	✓ Food Services/Cafeteria
✓ Life Science & Laboratory	✓ Science Classrooms
✓ Corridors	✓ Casinos
✓ Airports	✓ Grocery Stores
✓ Convention Centers	✓ Sports Venues
✓ School Common Areas	✓ Multi-Purpose Activity Areas

Built for Performance

Creative Terrain II can withstand 2500 psi, making it perfect for heavy rolling load environments including forklift traffic and hospital beds. Designed for high-traffic areas, the micro-squared edges of the tiles create a virtually seamless floor. For critical spaces that require sanitary solutions such as operating rooms, the product can be heat welded and flash covered for a hygienic, watertight installation. The 36x36 tile format means fewer seams, making heat welding faster and more efficient. With a 100% homogeneous construction, scratches and stains can be buffed out and refinished, making the floor look just like new.

MADE IN THE USA
Creative Terrain II is proudly manufactured in the USA.

TOTAL BOND ADHESIVE (M100)

This advanced adhesive is ideal for installing Creative Terrain II on high-moisture subfloors. Meeting tight turnaround times, Total Bond allows for light traffic after 3 hours, heavy traffic after 4 hours, heat welding and maintenance after 6 hours, and heavy rolling loads after 8 hours.

BEYOND CARBON NEUTRAL
Creative Terrain II is Beyond Carbon Neutral, for a Net-Positive impact.

NFSI Certified Slip Resistant in wet conditions

SUSTAINABLE

Creative Terrain II offers an EPD and HPD and is FloorScore certified for better indoor air quality. The flooring can be recycled through our ReCover Recycling Program.

WATERJET CUTTING DESIGN OPTION

With waterjet cutting and heat welding, this flooring allows you to create unique designs for wayfinding, branding, and more.

Elemental Edges

WALL BASE

Elemental Edges is a portfolio of architectural and wall base for your finishing needs. Featuring a range of colors that coordinate with our full product line, the collection also offers 14 stocked colors in cove wall base.

Flash Coving

Flash coving extends the flooring tile up the wall to eliminate the accumulation of dirt and bacteria at the junction of the wall and floor. Flash coving is essential in healthcare spaces and other environments where hygiene and ease of cleaning are a priority. However, the installation technique can be done in any type of space.

Initial Two-Step Homogeneous Resilient Tile Maintenance

Initial maintenance is required to ensure a good appearance. Proper initial treatment and continued cleaning will help your floor stay looking better longer. Treating the floor otherwise can negatively impact its appearance. Mohawk Group ships all required materials for the initial setup steps with each Creative Terrain II order.

STEP ONE
DEEP SCRUB CLEANER
First, scrub newly installed tiles with the Deep Scrub Cleaner, using the Mohawk Group Deep Scrub Pad (maroon color). This deep cleans, preps, and conditions the tiles, thoroughly removing manufacturing residue and creating a uniform appearance across the entire installation.

STEP TWO
MATTE FLOOR FINISH*
Next, apply Matte Floor Finish in a uniform coat using a microfiber flat mop system with microfiber finishing pad. Apply at least two coats for optimal results. This process provides a protective layer while delivering a natural matte finish. Apply after the Deep Scrub process to ensure optimal protection and appearance.

** Please Note: Mohawk Group now provides Matte Floor Finish; however, using a Spray Buff or High Shine Acrylic Finish remains an option after the floor has been Deep Scrubbed.*

Engineered for Durability

Thanks to its 100% homogeneous construction, Creative Terrain II allows scratches, scuffs, and stains to be easily buffed out at any time - maintaining a like-new appearance year after year.

Creative Terrain II vs. Poured Terrazzo

Faster to install. Easier to maintain. Creative Terrain II saves up to 66% on the cost per square foot, including materials and installation. Discover how Creative Terrain II offers a smarter alternative to poured terrazzo.

	Creative Terrain II	Poured Terrazzo
Product Warranty	25 Year Wear Warranty	Limited 1-3 Year Manufacturing Defect Warranty
Size	36" x 36"	Poured
Flexibility	High - will not crack after installation	Low - rigid, prone to cracking if substrate moves or under stress
Flash Cove	Yes	Yes
Heat Weld	Yes	No
Made in USA	Yes	Yes
Design Capabilities	Yes (Waterjet Cutting)	Yes, metal strip installation
Cost (material and installation)	\$10-12 sf	\$30-\$40 sf
Repairability	Easy tile replacement	Expensive, long down time, patching is visible, may require replacement
Installation complexity	Standard tile installation	Specialized skill required skilled craftsman
Initial Installation	Standard can be walked on immediately	Area shut down, lengthy initial installation of 5-6 days
Maintenance	Can be buffed or polished	Required sealing must be buffed routinely
Initial Maintenance Cost	Mohawk supplies cleaners at no charge for initial maintenance	High Quality Sealer (\$1-\$5 sf)

Specifications

Creative Terrain II (C2117)

DESIGN

Product Type	Homogeneous Resilient Tile
Overall Thickness	3.0mm
Colors	30
Size	Actual & Nominal 36" x 36"
Surface Profile	Smooth
Edge Profile	Micro-Squared
Installation & Adhesive	Total Bond Adhesive (M100)
Packaging	6 pcs per carton / 54 sq ft per carton

For detailed adhesive and installation information visit mohawkgroup.com

PERFORMANCE

Construction	Commercial Grade Homogeneous Resilient Tile
Classification	ASTM F1700 Class I:Type A
Squareness	ASTM F2055 - Passes, ±0.10" max
Size & Tolerance	ASTM F2055 - Passes
Flexibility	ASTM F137 - Passes, 1" mandrel
Thickness	ASTM F386 - Passes, as specified ± .005"
Static Load Limit	ASTM F970 - Passes, modified at 2500 psi
Residual Indentation	ASTM F1914 - Passes, < 8%
Dimensional Stability	ASTM 2199 - Passes, 0.020" / linear foot max
Resistance to Chemicals	ASTM F925 - Passes
Resistance to Light	ASTM F1515 - Passes, ΔE < 8
Resistance to Heat	ASTM F1514 - Passes, ΔE ≤ 8
Critical Radiant Flux	ASTM E648 - Class 1 (>0.45 W/cm²)
Smoke Density	ASTM E662 - Passes, <450 or less, both flaming and non-flaming
Slip Resistance	NFSI B101.1/NFSI B101.3 - NFSI Certified Slip Resistant

SUSTAINABILITY

Certification	Environmental Product Declaration, Health Product Declaration
Indoor Air Quality	FloorScore® Certified
Carbon	Net-Positive Carbon (Neutral +5%)

SERVICE

Warranties	Limited 25-Year Wear Warranty, Limited Lifetime Manufacturing Defects Warranty, Limited 25-Year Under Hospital Bed Warranty*

*When installed with approved adhesives. For detailed adhesive and installation information, visit mohawkgroup.com

Mohawk Group warrants its adhesives for the life of the original installation only when a Mohawk Group style (product) is installed. Mohawk's floor preparation procedures must be followed to ensure that the substrate has been prepared properly. The use of Mohawk Group approved adhesives is required to ensure optimum results and are the only adhesives warranted by Mohawk Group. Please contact your local Sales Representative for installation guidelines.

Mohawk Group is providing this architect folder for the purpose of promoting our commercial business. This folder and its samples shall remain the property of Mohawk Group. Color may vary from dye lot to dye lot. Substitution of material may be made due to improved technology, supply limitations or other factors. The performance of this product is not affected by such variations. **For current and complete specifications please visit mohawkgroup.com**

RECOVER
RECYCLING PROGRAM

Give your old flooring a second life with our award-winning ReCover Recycling Program. We will take away flooring made by any manufacturer, recycle it for you, and provide a certificate showing your positive impact on the planet.
