EcoFlex[®] ONE is a state-of-the-art backing system that improves every aspect of comfort and acoustics while eliminating moisture testing—all with a lighter environmental footprint that is Beyond Carbon Neutral. Tested, proven, and certified, EcoFlex[®] ONE is the holistic solution for human-centric environments.

EcoFlex[®] ONE gets it done.

Improved Acoustics

- Virtually no sound transmission between floors, IIC rating of 72¹
- 16x quieter than concrete, drastically reducing in-room noise
- Reduces auditory distractions and contributes to feelings of well-being

Enhanced Comfort

- Integrated cushion provides greater comfort when standing and walking
- Helps reduce fatigue to support occupant efficiency and productivity

Worry-Free Installation

- No moisture testing required,² eliminating mitigation time and costs
- Reduces pre-existing adhesive concerns and protects carpet installations by allowing installation over old adhesive, provided it is not odorous or compromised
- No transition strips required when used with 4.5 or 5 mm LVT

Simplified Maintenance

- Duracolor[®] Tricolor fiber engineered to hide soil and release soil easily for cleaning
- Permanent, built-in stain resistance won't wash or wear off
- Unsurpassed durability resists crushing, delivering longer life-cycle

1. IIC result on 6' concrete slab with ceiling

2. No moisture testing required provided no visible moisture present. See Mohawk Group installation guidelines for additional details.
