### DESCRIPTION

VPI ESD Ongoing Cleaner has been especially engineered to properly clean Mohawk Group ESD tile. The pH balanced formula removes alkaline residues and soils that dull along with other contaminants that can act to insulate the floor.

It can be used daily, or as often as needed, to keep Mohawk Group ESD tile looking and performing at optimum levels.

### USES/BENEFITS

- Extremely economical to use
- 100% Active
- Highly Concentrated
- Biodegradable
- Environmentally Safe
- Odor Counteractant
- Pleasant Fragrance
- Can be used for mopping, or in auto scrubbers.
- Cleans and protects ESD tile
- Leaves no residue
- Removes alkaline films

### DIRECTIONS FOR USE

Sweep or dust mop the floor to remove any large debris. Never use oil base treated dust mops.

Dilute VPI ESD Ongoing Cleaner (1 part Cleaner:64 parts water) or 2 oz./gal with cool water. Damp mop or auto scrub using a red pad. Rinse as necessary.

Frequency of maintenance can be daily or on a periodic basis depending on visual requirements, traffic and other site specific environmental conditions.

**NOTE:** It is very important to follow the specific directions for cleaning Mohawk Group ESD TILE. Treating it otherwise, can negatively impact visual appearance and electrical performance.

**IMPORTANT:** Never buff in excess of 375 RPM.

### PRECAUTIONS

KEEP OUT OF REACH OF CHILDREN.  
See container and MSDS for safety.
