

Heathered Hues

A Biophilic Fiber System

Dimensional Colors with Natural Appeal

With Heathered Hues yarn, Mohawk Group carpet provides the visual appeal of natural wool, in high performance, highly sustainable solution dyed nylon. And now, in addition to delivering wool-like softness and warmth, Heathered Hues offers thematic palettes in 46 colors to inspire your designs.

Available in both Duracolor® Tricolor and ColorStrand® technologies, the three palettes feature warm and cool neutrals with vibrant color accents, drawing from today's trends for the built environment. With more colors and the carpet's authentic wool appearance, you can create interiors that are unique to a culture while offering warm, inviting, and comfortable spaces. For any project, find new possibilities in biophilic design and styling with the Heathered Hues palettes.

Grounded Earth

Grounded Earth is an array of rich, warm-toned yarns that evoke the natural beauty and warmth of the earth beneath our feet. These colors are inspired by the grounding elements of nature, from the deep, sunbaked hues of clay to the golden hour of sunset. Imagine the comforting presence of a terracotta hillside, the glowing embers of a fire, and the rustic charm of autumn leaves. Each color captures the essence of these earthy tones, offering a palette that is both timeless and deeply rooted in the natural world. This palette is ideal for creating cozy, inviting interiors that bring nature's warmth indoors.

Plush Planet

Plush Planet is a serene grouping of cool-toned yarns, inspired by the tranquil beauty of nature's calming elements. These colors reflect the peaceful blues of clear skies and deep reflective oceans, alongside the refreshing greens of lush forests and wild meadows. From the soft hue of mist over a lake to the vibrant depth of moss, this color grouping offers a soothing palette found in nature's most biodiverse landscapes. Each color embodies the gentle surroundings of nature, perfect for projects that evoke calm, balance, and a sense of connection to the heart of nature.

Creature Comforts

Creature Comforts is a range of warm, light neutral yarns designed to evoke feelings of cozy relaxation and effortless elegance. These colors, reminiscent of soft wool blankets and creamy cashmere, bring a soothing warmth to any project. With hues that range from gentle alabaster and flax linen to soft taupe and parchment, this palette is perfect for crafting comforting and timeless spaces. Each neutral color is imbued with the essence of natural simplicity that wraps you in the soft embrace of haven and home. Perfect for those who seek comfort in both texture and tone.

Mohawk Group

Mohawk Group

At Mohawk Group, we believe that design is emotive, connecting people to inspiring, immersive experiences of place and purpose. This is what drives our team to design with intent and your aspirations in mind.

With our newly expanded Heathered Hues yarn bank, we remain steadfast in our environmental stewardship. The system was designed to do more with less. The yarn itself is dematerialized and has a low environmental impact. As a solution dyed fiber, no water is used in production. Finer yarns are used for performance at lower weights, which reduces the use of resources. We also practice “Direct Tuft,” where the extruded yarn goes directly to the tufting loom with no additional processing. This minimizes energy and carbon dioxide impact and makes the fiber easy to recycle.

Discover our soft and hard surface collections to find flooring that creates meaning—for people, places, and our planet. Leading with sustainability and biophilic design, we support your vision and purpose for every space.
