

**Client**  
Chicago Midway International  
Airport

**Design Firm**  
Kingston Tile Company

**Location**  
Chicago, IL

**Products Used**  
Adopt A Plan, 565 Franklin

## Challenges

- Support an airport environment serving **22M+ passengers annually** with continuous, heavy foot traffic
- Maintain appearance and performance despite spills, rolling luggage, and frequent cleaning
- Refresh the space with a modern aesthetic while staying within strict budget requirements
- Meet an accelerated schedule with minimal disruption to daily airport operations

## Solution

- Selected **Learn & Live Taking Steps Collection, Adopt A Plan** for its balanced combination of design, durability, and long-term consistency
- **Duracolor® Tricor™ fiber** delivers built-in stain resistance, high wear performance, and long-lasting color integrity
- **EcoFlex ONE®** backing eliminates moisture testing, reduces floor prep, and supports faster, more efficient installation
- Nearly **120,000 sq. ft.** delivered in **five weeks** through the QuickShip program
- Utilized mergeable dye lots to ensure visual continuity across large areas and future replacements
- Product availability and logistics planning helped maintain the project schedule and avoid delays.

## Better Together

Collaboration between Midway stakeholders and our project team ensured alignment on performance, design, and budget needs

- Our team identified a product solution that met durability expectations without overengineering or exceeding cost constraints
- Coordinated scheduling and logistics allowed installation to proceed efficiently within an active airport environment

## Value Achieved

A flooring system that continues to perform in one of the most demanding public environment:

- Durable fiber and backing working together to protect appearance, reduce maintenance, and support long-term use
- A refreshed, cohesive design that enhances the passenger experience
- A trusted partnership delivering speed, reliability, and proven performance
- Flooring continues to meet performance expectations under daily use
- Visual consistency and stability maintained across large installation areas
- Project delivered on time, on budget, and built to last

"Kingston Tile was honored to be part of the Midway carpet replacement job, which consisted of replacing all the carpet tile throughout the entire airport. With a well-executed plan and a great team to work with, consisting of Ornelas Construction, Matco, and the Mohawk team, this project was a success on all ends. From the beginning of placing the carpet tile order, receiving multiple deliveries, and communication being key, helped us to turn this project over with very little disruption to the airport. We appreciate all parties and the Mohawk team for trusting us in such a high-profile project. We look forward to working with everyone again in the future."

- **Chris Adams, President, Kingston Tile Company**

## Sustainability

NSF 140 Platinum

Declare Red List Free

72% recycled content in selected carpet materials
