Spatial Build: Curated for You

Top School Colorways, Curated for Easy Ordering

More Colors, More School Spirit

Meet a new addition to Spatial Build: Curated for You. This selection of 18 additional colorways represents the top school color combinations. With these additional colorways in the Dynamic Fade and Dynamic Flow styles, plus the original Spatial Build collection, it's simple to build school spirit from the ground up.

Whether you choose an original colorway or one of the new additional Curated for You colorways, the expanded Spatial Build collection gives you total flexibility to add the right amount of color to each space.

Curated for You Colorways

- 18 top school color combinations
- Available only on our website
- These additions build on the original palette, coordinating with the collection's Dynamic Field colorways
- 50 square yard minimum order

Pick Your Color Combination

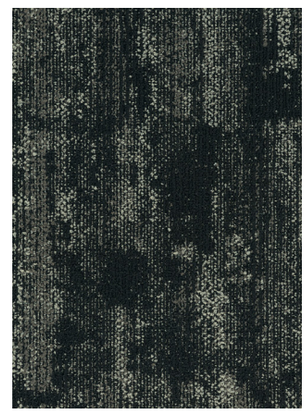

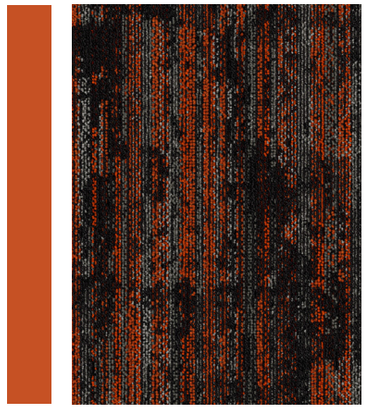

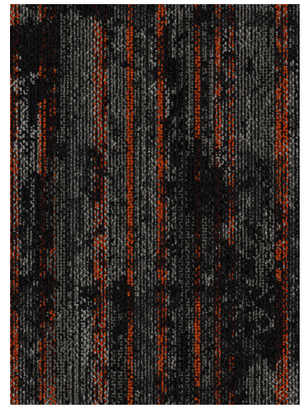

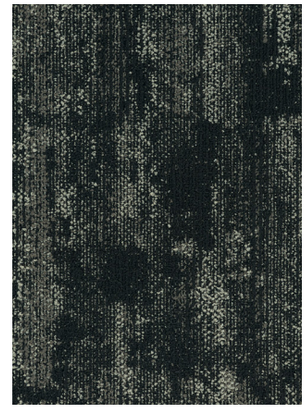

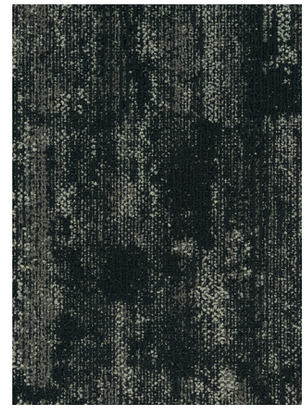

Start with your school colors from these curated options. Then use the three styles to control the amount and placement of color in a space. Dynamic Field is purely a base or neutral—no accent color in it. Dynamic Fade provides a small amount of accent color. Dynamic Flow delivers a larger amount of accent color. The organic, gradient design of the styles allows for easy transitions throughout your spaces.

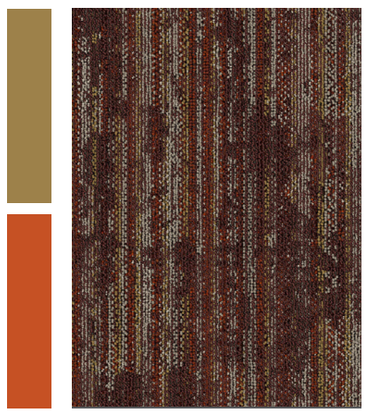

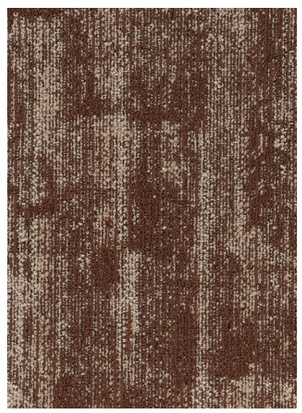

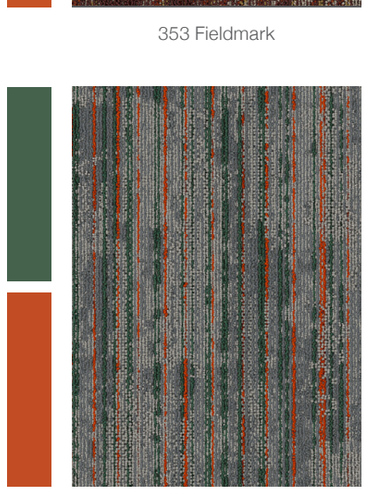

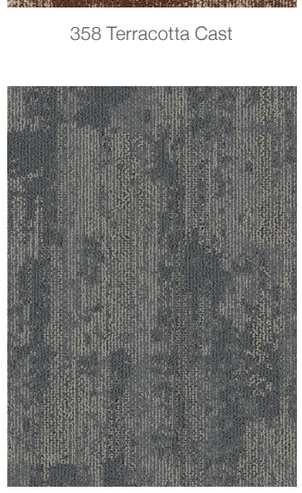

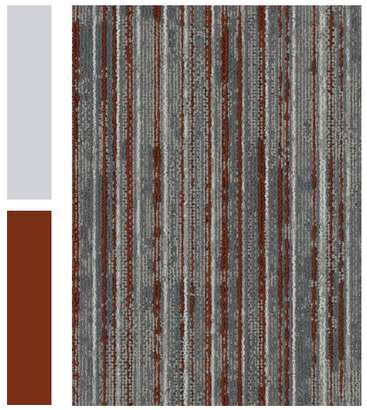

Shown in the middle column, the Dynamic Field colorways are part of the original collection palette and provide coordinating base colors.

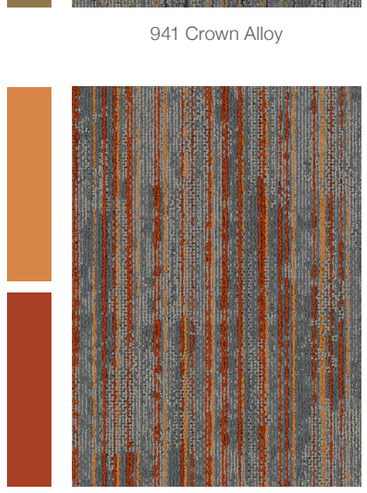

Dynamic Flow (Bright Accent)	Dynamic Fade (Bright Accent)	Dynamic Field (Base)
		
642 Pine Voltage	642 Pine Voltage	649 Verdant Facade
