

100% PVC-free and made with recycled single-use plastic and natural stone, every square foot of SolidTech® R flooring contains the equivalent of 20 recycled water bottles. It's floodproof, durable, and scratchproof — with zero acclimation time needed.

Sustainable Strength

PVC-free with a durable core made from 3 parts stone and 1 part recycled single-use plastics, plus stronger joint integrity delivering long-term performance while supporting eco-conscious construction goals.

High-End Looks, Built-In Value

RealPlank™ technology reduces pattern repeat, and HDX color clarity creates authentic, natural visuals—bringing style and sophistication to any project.

No Acclimation, No Delays

Made with 100% recycled PET instead of temperature-sensitive PVC, SolidTech R installs immediately upon delivery—ideal for keeping new construction projects on schedule.

VISUALS

HDX™ Technology is a high-definition color process resulting in extreme color clarity and no loss of color detail.

RealPlank® technology introduces more unique plank designs to minimize pattern repeats, creating a more natural, authentic wood-look floor.

EasyClean® technology repels dirt and grime for simple cleanup and stain protection.

SUSTAINABILITY

Every purchase of SolidTech R helps stop ocean plastic in collaboration with Plastic Bank.
