LIKE Collection

LIKE

Inspired by ink-washed paintings' ability to captivate the viewer with its impulsive and fluid nature, these works of art provide unpredictable results as the process cannot be controlled with precision. Paint bleeds and disperses through opposing colors, creating waves and sculpted forms, with overlays of classic lace drape and contour, drifting and rippling across the surface.

All of the nuances of translating ink patterning into carpet are made possible in the Liike Collection through the technological advances and multi-level cut and loop capabilities of Durkan's Definity construction.

—Yelena Rodina

Liike is featured in Durkan's innovative Definity technology which redefines luxury performance with patterning and textures never before seen in the industry. Enhanced surface detailing provides more than twice the definition of any other high-end hospitality carpet. Durkan's exclusive technology creates precision sculpted dimension for incredible visual and tactile experiences.

Product Guide

Liike is available in Definity, PDI and CYP constructions. Each product type utilizes a different manufacturing process which can yield variations in color and texture. Please refer to the guide below for specific color information.

Definity

Durkan's innovative Definity technology is available in up to 12 colors and features our unique precision sculpted technology which explores and emphasizes dimensional effects.

Shown, right and opposite page: QTW57029-MW445

PDI

Durkan's Precision Dye Injected (PDI) construction offers a range of patterns available in 12 colors.

Shown, right: D57035-MW443

CYP

Durkan's Computer Yarn Placement (CYP) construction offers a range of patterns available in 6 colors.
