

Infinite Impact

Mohawk Group continues to be a leader in sustainability and design, creating quality, high-performance, and engaging soft surface flooring. Infinite Impact carpet plank is derived from this key direction on design and sustainability, constructed of EnviroStrand solution-dyed polyester fiber. With its modern tactile attributes, Infinite Impact features six natural chameleon colorway combinations that not only visually inspire, but help reduce environmental impact as well.

Through the EnviroStrand fiber platform, Mohawk Group gives new purpose to discarded plastic bottles by turning them into PET carpet fiber. In manufacturing products like Infinite Impact and similar carpet styles, Mohawk Group diverts billions of these bottles from landfills, waterways and oceans each year.

Cover: Infinite Impact 949 Polished Pewter (Brick Ashlar Installation)

Infinite Impact 978 Wrought Iron, Centrato 718 Calypso (Brick Ashlar Installation)

Infinite Impact 949 Polished Pewter, Centrato 929 Oyster (Basket Weave Installation)

EnviroStrand™ SD

EnviroStrand solution-dyed fiber aligns Mohawk Group's industry leadership in sustainability and design to create reliable, high performance, visually stunning carpet. Giving new purpose to discarded plastic bottles by turning them into PET carpet fiber, which requires less energy to manufacture, Mohawk Group utilizes a patented process that enhances the strength of the yarn while incorporating a multi-step purification process that ensures that the carpet resists dirt, grime and contaminants. EnviroStrand fiber is also offered in a flexible collection of color options that is used to produce new product styles.

PERFORMANCE

- An amazing range of style and color options available for design flexibility
- EnviroStrand™ SD is constructed with our patented technology, providing the ultimate innovation in PET carpet
- EcoSentry Soil Protection
- Ease of maintenance

WARRANTY

- 10 Year Limited Warranty for: Wear, Static, Stain resistance, Colorfastness to Light, Colorfastness to Atmospheric Contaminants

SUSTAINABILITY

- Contains a minimum of 90% post-consumer recycled content
- Requires less energy to produce in the manufacturing process
- Through our patented process, Mohawk recycles 6.2 billion PET bottles every year. That equals about 45% of all plastic bottles collected in North America, and if placed end to end, the bottles would circle the earth 31.4 times
- CRI Green Label Plus® certified

Specifications

Infinite Impact BT499 / QB499 Carpet Plank

DESIGN

Size	12" x 36" (.3048m x .9144m)
Surface Appearance	Textured Patterned Loop
Fiber Type	Envirostrand™ PET
Dye Method	Solution Dyed
Installation Methods	Monolithic / Monolithic Stepping / Half-Lap / Plank Half-Lap / Brick Ashlar / Random / Herringbone / Basket Weave
Colors Available	6

PERFORMANCE

Construction	Tufted
Gauge	1/12" (47.00 rows per 10cm)
Soil Release Technology	EcoSentry Soil Protection
Backing Material	EcoFlex™ Matrix
Flammability	ASTM E 648 - Class 1 (Glue Down)
Smoke Density	ASTM E 662 - Less than 450
Static Propensity	AATCC - 134 Under 3.5 KV

SUSTAINABILITY

Indoor Air Quality	Green Label Plus Certified #100055
--------------------	------------------------------------

SERVICE

Warranties	10 Year Limited Wear Warranty, 10 Year Limited Static Protection, 10 Year Stain Resistance Warranty, 10 Year Limited Colorfastness to Light, 10 Year Limited Colorfastness to Atmospheric Contaminants
------------	--

Installation Instructions:

Mohawk Group warrants its adhesives for the life of the original installation only when a Mohawk Group style (product) is installed. Mohawk's floor preparation procedures must be followed to ensure that the substrate has been prepared properly. Failure to use Mohawk Group adhesives or to follow Mohawk's floor preparation procedures will void all lifetime adhesive warranties. Please contact your local Sales Representative for installation guidelines.

These patterns contain inherent characteristics which may result in pattern run off and/or pattern appearance variations at the seams or tile edges (darker or lighter pattern lines). These characteristics are inherent in the patterns and are not manufacturing defects. Consideration to these characteristics should be given when selecting an installation method.

Chair pads are recommended under office chairs with roller casters to preserve appearance retention, act as a deterrent toward delamination and to prevent premature or accelerated wear. Walk-off tiles from the Tuff Stuff II Collection are recommended at entryways to reduce soiling.

Mohawk Group is providing this architect folder for the purpose of promoting our commercial business. This folder and its samples shall remain the property of Mohawk Group. Color may vary from dye lot to dye lot. Substitution of material may be made due to improved technology, supply limitations or other factors. The performance of this product is not affected by such variations.
