

**Project Profile:** Crooked Oak Media Center

**Firm:** JHBR Architecture

**Location:** Oklahoma City, OK

**Photographer:** Mel Willis

**Products:** (12"x36" modular carpet)

*Collection:* Visual Edge, *Style:* Angled Perception, *Colors:* 989 Dark Charcoal and 979 Metal Grey

*Style:* Color Balance, *Colors:* 373 Atomic and 949 Concrete

**“When selecting the carpet for the Crooked Oak Media Center, we knew the space needed added texture and interest. The graphic and hexagonal pattern of the Angled Perception pattern from the Visual Edge collection provided a great pathway from front to back within the building. By combining it with the school colors from the Color Balance style, the flooring became a meaningful addition to the overall design of the facility.”**
