## **MOHAWK GROUP EXPANDS MEDELLA LINE OF HOMOGENOUS RESILIENT SHEET FLOORING**

**DALTON, Ga., December 16, 2022** — Medella is the latest answer to the market’s need for high-performing homogeneous resilient sheet flooring. As the No. 1 specified homogeneous resilient sheet flooring in healthcare, Mohawk Group’s expanded line, which includes Medella Fleck, Medella Hues and Medella Well, combine evidence-based design, technology and innovation to extend the quality of care in healing environments. The hard surface line offers a wide array of colors and soothing patterns inspired by nature, and coordinates well with other Mohawk Group LVT and carpet collections.

“With the addition of this industry-leading product, Mohawk Group has established itself as the superior provider of flooring for healthcare spaces,” states Darby Moraitakis, marketing manager for healthcare and senior living at Mohawk Group. “Performance isn’t an afterthought in healthcare spaces; it’s a requirement. The new Medella additions meet and exceed that requirement, while also providing an aesthetic that creates a warm and soothing space.”

The new Medella styles feature the M-Force™ Ultra complete performance system, which provides the exceptional scratch, stain, scuff and slip resistance required by demanding health and wellness spaces. M-Force™ Ultra offers unmatched resilience and ultimate durability to withstand heavy foot and rolling load traffic.

Moraitakis continues, “PVC-free Medella Well is free of plasticizers, ortho-phthalates, halogens, isocyanates, and Red List Chemicals of Concern. Mohawk Group is taking its commitment to being better for people and the planet by taking its products Beyond Carbon Neutral, meaning our products are 100% neutral, plus an additional 5% for a net-positive impact on the environment. Additionally, all styles are FloorScore Certified.”
