

OptiSeal™

Adhesive Cutback Sealer or High Moisture Sealer

INSTALLING CARPET TILE OVER OLD ADHESIVE RESIDUE OR HIGH MOISTURE AREAS

Mohawk Group OptiSeal™ is a light-colored, high-strength, acrylic-based compound designed to be used in either high moisture areas or to isolate old adhesive residues. OptiSeal™ is formulated to be compatible with all Mohawk Group products and adhesives.

OptiSeal™ will also improve dusty and porous floors to provide a clean surface for better adhesive bonds.

It contains “zero calculated” VOC’s and does not contain any known hazardous materials.

-
- Warranted up to 95% RH and 11 pH
 - One coat solution for installing over old adhesive residue OR over high moisture situations
