Sustainability

Mohawk Group is proud to provide products free of Red List chemicals with verified documentation of their impact throughout the life cycle.

With the holistic improvement of the life cycle of our flooring products-- from full product transparency, to reduced water usage in manufacturing, to carbon neutrality and beyond- better is just the beginning.

Our products are made to last, created with fiber and backing technologies that target durability and lasting quality. We create products with circularity in mind: when your flooring is ready to be replaced, we will recycle it through our ReCover program.
