CONSTRUCTION

WEAR LAYER - Making it easy to clean and maintain, the wear layer repels dirt and grime, while resisting cuts, dents, scrapes and scratches for long lasting protection against day-to-day wear.

DESIGN LAYER - Where the high-definition designs and colors come to life. A multitude of print cylinders create the most realistic visuals in the market.

FIBERGLASS - The fiberglass core is covered by PVC layers, providing strength with flexibility for easy install as well as adding dimensional stability, which means no cracking, curling, expanding or contracting.

COMFORT FOAM BACKING - Provides the ultimate foundation for comfort, support and durability, while reducing impact noises and sound transmission as well as resisting mold and mildew.
